FOLDER: Allessandro Vercelli (Instituto di Economia, Facolta di Scienze Economiche e Bancarie, Siena, Italy). *Technological Flexibility, Financial Fragility, and the Recent Revival of Schumpeterian Entrepreneurship*. Aug. 6, 1986. [“The author gratefully acknowledges financial support by C.N.R. and by the Italian Ministry of Education. Although there are some overlappings between this paper and a companion paper (Vercelli, 1986), particularly in paragraphs 2 and 3, they should be considered as complimentary. This paper focuses on the interrelations among technological uncertainty, technological flexibility and financial fragility, while the other one sketches - from the same point of view - a critical reappraisal of the Schumpeterian theory of entrepreneurship…”] [4 copies, 1 copy of First Draft 9.5.1985 (29 pages), 1 copy (8 pages)]
