International Employment and Social Security Cards

A Social Security Number (SSN) is a tax identification number that tracks employee salary in payroll system. Social Security Number are issued by the Internal Revenue Services (IRS), which is the tax authority of the United States. Employers use the SSN to maintain payroll records and as a form of identification for the I-9 Employment Eligibility Form. Foreign Nationals are required to have a specific immigration status to be eligible to apply for a Social Security Number. If you have been offered a position of employment at the college, you will be required to have an immigration status that allows for employment and you will need to apply for an SSN (if you do not already have one). Social Security Numbers do not expire, therefore, if you have previously had one you can not apply for a new number. Applications for new or replacement cards must be submitted in person at a Social Security Administration Office.
