

Bard College

Wireless Connectivity Information / 2016

Setting Up a Wired Connection

To connect to the campus network you must have a Category 5, 5e, or 6 network cable. If you do not have one, you can purchase one from the Bertelsmann Campus Center Bookstore or from a local vendor such as Best Buy at the Kingston Mall. Cables are *not* available at the Help Desk.

After connecting the cable, turn your system on. Your computer *may automatically detect the correct network settings*. If you can connect to the internet, you're done.

Setting Up a Wireless Connection

Note: If **BardWireless** is not listed that means it is not available in your area. If you see a wireless network other than **BardWireless** please report it to the Help Desk at x7500 and **do not** connect to it.

For Macintosh

Setting up a Wireless Network Connection with Mac OS

1. Start up **OSX**. Click  in the upper right hand corner, to the left of the time display.
2. **AirPort: On** should be "grayed out." If it says **AirPort: Off** click on **Turn AirPort on** and select the  icon again.

3. Click **BardWireless**. This will now connect you to Bard College's wireless network.

For Windows

Setting up a Wireless Network Connection with Windows OS

1. In Windows 7 click the Windows key () on your keyboard and type in **Control Panel**. There, click **View network status and tasks**.
2. Select **Set up a new connection or network**.
3. In the **Set Up a Connection or Network** window select **Connect to the Internet** and click **Next**. If it says you are already connected to the internet it means that you are already connected and should have internet access. In that case click **Cancel**.
4. If you are notified that **BardWireless is an unsecured network**, click **Connect Anyway**.
5. You should see the message: **Successfully connected to BardWireless**. Click **Done**.

Wireless Access Points:

All Student Dorm Rooms Most Academic Spaces

**Wireless routers are NOT
ALLOWED ON CAMPUS**
