COMMITTEE GOES TO BENNINGTON FOR CONFERENCE

Five will Make Vermont Trip to Discuss Educational Policies.

A committee from Ben on educational policies will confer with a similar committee from Kent College, Bennington, Vermont, the week of April 20, on educational institutes over the weekend of April 20.

The conference will be the first of a series of co-operative conferences between Dean Trevor R. White, chairman of the Education Department, Ben; and Professor F. H. Orr, chairman of the Education Department, Kent College. The first official contact between the two groups took place last week when Tun Williams, Kent's professor of English and a member of the Kent faculty, visited Bennington with the committee. Ben will also be the first to explore the possibility of a co-operative study program at Ben. Kent has been in existence for some years in a venture similar to the one planned here. The two schools are strongly interested in cooperative study programs.

Bennington is interested in trying many new and somewhat experimental educational programs as a way of keeping their educational plans vital and up-to-date with the needs of the day. Kent College, in turn, is interested in the same thing. The two schools will combine their resources to the advantage of both and will announce more details on the conference later.

From the Dean

In response to your suggestion, I am glad to send you a statement regarding the present situation of religion in the college. It is my belief that the problem of religion in the college is a vitally important one. The conflict between religious belief and the college philosophy is a problem that cannot be ignored. The college must be sensitive to the religious needs of its students.

The Board of Trustees are ultimately responsible for the education of the college, the construction and operation of its buildings and the selection of the faculty. The students themselves are represented by the student body and the student government. The faculty are responsible to the Board of Trustees and to the student body.

SENIORS HEAR YOUTH DESCRIIBE ITS OWN PIGHT

Washington, D. C. (AP-NSBA) Educational and Laymen's Representatives at the National Council of Youth Activities, which met here in an intensive study of the immediate needs of the American youth today. The meeting closed with a call for action, and the president-elect, Dr. John L. Flinn, delivered a presidential address.

At the conclusion of the meeting, the National Council of Youth Activities adopted the following resolution: "The National Council of Youth Activities, in resolution of the need for a National Youth Act, calls upon all interested bodies and individuals to take part in the national work that has come to a close, and that those who testified presented a complete description of the youth problem for the first time.

This report was presented to the American Youth Congress and introduced into the Senate and House by Senator Benson of Minnesota and Representative Anne Arche of Wisconsin. The National Council of Youth Activities has authorized the introduction of this report to the Congress of the United States and to the Senate and House of Representatives.

Brian Wilson: On the evening of March 20, the Freshman Frolic, its annual springtime social, was held in the college gymnasium. The Frolic is an important event for freshmen and seniors, who are the main participants. The event was well attended, with a large crowd of students and faculty in attendance. The Frolic is an important event in the college calendar, providing a chance for students to socialize and enjoy each other's company.

The Frolic is also a valuable opportunity for students to gain experience in organizing and hosting events. Students are encouraged to participate in the planning and execution of the Frolic, which helps to develop important skills and experiences that will be valuable in their future careers.

The Freshman Frolic is one of the most anticipated events of the academic year, and it is a tradition that is deeply embedded in the college's culture. Students look forward to the Frolic all year, and it is always a highlight of the college calendar.
American Student Writes on Italian Universities

Tell's Status of Higher Education Under Mussolini Regime in Fascist Italy.

This is the second in a series of articles written exclusively for The Bardian and the Associated Collegiate Press by Numa N. R. Fournier, a student of the University of the American at Rome, and now a student at the University of the American in Italy, under the auspices of the Associated Collegiate Press. Miss Fournier was a student of the University of Rome on an American-Italian maintenance scholarship fellowship of the American University, and the Institute of International Education.

By Numa N. R. Fournier

Rome.—The Italian government has determined to take the centimeters from the circumference of its university professors.

There was little sport in the Italian universities when these professors were studying for their degrees. Indeed, Italian sport has been almost wholly the creation of the Fascist government. Under these plans, the students have fallen eager, and F. D. has had no trouble getting them to take part in soccer, basketball, rugby, tennis, track and the other Fascist sports.

The professors, however, have not shown the same enthusiasm for these activities. And the Associated Collegiate Press is made aware that the Fascist regulations are no more imposing than the centimeters that would once have been so important to the professorial rank.

In the plans for the new university, the professor of Mussolini instructed the administrator not only to plan for a gymnasium for the students, but to include in his plan a gymnasium for the professors.

The gymnasium includes apparatus for both active and passive exercises; the professor may do his assign activity after class hours by some game such as handball or he may simply lie back and let the electric按摩 machine do the work.

There are no fraternities in Italian universities; rather the students are joined in one great Fascist association that includes both men and women, and that combines the students of all the faculties.

This organization, officially called the "Gruppo Universitario Fascista," is better known as the O.U.P. (pronounced "Oo-pit"). It is a far-sighted and dynamic one, spreading its membership to all parts of Italy.

No faculties are opened to students without membership in the O.U.P. Prospective students must first pass a series of examinations before they are admitted.

Patriotic Paint . . .

Social satire is again coming to the fore as a weapon. While we thought that such monstrosities were buried along with Dean Swett and Cervantes, we cannot help paying tributes to one Mr. Girton of Princeton for his own gargantuan satire on patriotism and patriotism-greed—The Veterans of Future Wars. Surely its conception required genius akin to that of ancient masters of satire.

But one of the up-the-patriot heroes has gone. Mr. Girton one better. We don't know who the proposer of Assembly Introductory 1796 was and we don't particularly care. Suffice it to say that he has been chosen by some group in this enlightened state to make laws by which that group is to live. We don't know if he was acting according to the wishes of his constituents when he proposed A. 1795 but we hesitate to accuse either the good legislator or his constituents of such childish fanaticism as is displayed in that bill. However, the bill is on the floor and the State Assembly will have to answer for it. It calls for RED, WHIT, and MLTC color to be used in marking public offices as a counter-irritant for the subversive teachings to be applied every public school pupil as they slither from those benches—no, make that to theMoscow-educated teachers. What do make of this man who suggests such a panacea? He is a patriot, a damned fool, or he does own stock in some large paint concern.

Addenda:

Concerning Chapel . . .

Elsewhere in this issue will be found a ques-
tionnaire sponsored by Two Barians in collabor-
ation with the Psychology Department. The nature of the subject is such that while it is undoubtedly of great significance to members of the college community, we feel that the distribution of all, and Two Barians in sponsoring the poll does not wish those convictions, positive or negative, to be expressed in this forum as they may be dealt with by publicizing them separately. In requesting that the questionnaire be filled out we ask that every question be answered and that the answer be written frankly and sincerely, and respect.

Furthermore, we wish to make it clear that we intend to exclude from the results of the questionnaire. Should they suggest that a suf-
ficient majority of the student body would change their course of action, that would put that majority opinion in the form of a factual statement. We feel that in doing this we will be acting accord-
ing to the standards of the college, a matter vital to the best interests of the college.

Alms for Obligation

-Judge Rockwell

The Last Punishment

One hour or so after whose downfall has been brought about by a series of lollypops and a burning desire to rise up to one whose gods have been insufficiently propitiated by the goods he holds generally to be good. Oliver Alden, student of the college, who was pronounced dead by his doctor and went to the headquarters with a view to his being given a dignified burial, was pronounced a failure by the medical profession.

"Xia" says Guttenberg, speaking of Oliver, "the victim of a common, a moral, a physical, a mental, a social, a political failure. The man he is, and was—born on a—born to a fate which will result in his being belted and whipped by the medical profession."

To our poor puritan, weighty Oliver, who would have heard from his elders about the need for balance between body and mind and between reason and emotion, we offer the following: The word "success" is a relative term. In the case of society as a whole, there may be no use in trying to prevent society from being either a failure or a success. But in the case of an individual, there is a chance to prevent such a disaster. The word "success" is a relative term. In the case of society as a whole, there may be no use in trying to prevent society from being either a failure or a success. But in the case of an individual, there is a chance to prevent such a disaster.

The next war will be won by the nation having the best gasoline. Says Dr. Merrill P.福克 of Pennsylvania State College, "Our government is doing exceedingly well in the race toward the development of the automobile."

Athletics

Elliott Rosenberg

And if winter comes, can spring be far behind? No. And if spring comes, can summer be far behind? Yes, but only if winter has been long and cold. When early date, however, there isn’t much time for winter. And if spring comes, we’ll all be out for tennis or tennis. There was a short work- shop on the other side of the park which will be forthcoming. As for tennis, nothing much will be done until the weather changes... any change will have to be a little better... Williams and Simmons will be in charge of the varsity tennis squad... The matter of golf is in the throes of an adjustment at present... and more news will be available soon we hope.

The finals of the first and second seasons will continue with the Intercollegiate tennis tournament, via the frosh and sophomores, right out to the edge of the park with the sophomores on top of a 40-50 foot scale. Appetites will be satisfied in the three races and forty-five point total. All this he needs now to be thoroughly versitale is a tennis twelve lesson course in domestic training.

K.G.K. tours the Help in a play-off for the bowling championship. There is an average of 30 high-score of 412 (plus) (The old high was 412), MacNichol ballled the championship team, which consisted of Finkel, Miller, and himself. He’s been turning up some faint performances—enough to take home for a high score of 412. The average was a high one for high singles—both men having an average of 412. The average was a bit more high for high singles—big hitters and the like. Silver medals were awarded to the above three men, which is a bit more serious than the Hans Simpson (32) Trophy. K.G.K. is to be commended for personal possession...

B.A.D.C.

With intramural basketball over except for a few who are still left, the indoor basketball inter- league tournament is now in full swing. Members of the B.A.D.C. met the Sophomores with a Non-Doc 1-2 victory over the B.A.D.C. by a score of 25 minutes. The A.M.T. 1-2 minute rush to nose out the Faculty 1-2. The Interleague basketball is a veritable Dick and Frank Merri- land atom, the other men—of which there are only two—being the only ones to score. The only way a man can get off a score is by seeing red. A score of 412 alone, played the Merrill Bros., was kept the worst score of the season... "Test, pitching for the Non-Docs, struck out the 3rd, the 5th, the 7th, of whom he did not strike out... The game was played in the cycle and the last three men to score were B.C. and Vasser.

STATE FACTORY ENTITLED TO EAT IS IT'S OWN REWARD

Apart from the usual defeats, the B.A.D.C. in the final game faced defeat. The light heavyweightback again against the Sophomores and the A.M.T. played on a public figure outside the ring as least. At least he was in the third. At that time he was connected with a summer camp in the Colatina. I imagine he was fairly well fed financially then, inasmuch as we had so recently retired. Therefore, it seems more plausible that an important reason for his connection was his wish to have a summer camp to raise money for the B.A.D.C. children. Some kids with them by the hour telling them funny stories in that low, husky voice of his. And The kids loved him. He was "Benny" to everyone—everybody’s friend.

Benny had a swell Cadillac which he used for quick trips to and from N. Y. C. Many of us can still remember how he used to plie that shiny new Cadillac full of spolig eggs and milk cans round around the bunks and tent. With the kids and their milk—so that they would have to come out of the rain. When he was through, the porch looked like the old tin can you wouldn’t want to borrow from your girl friend’s old man to take his daughter parking. But what a car... Benny took it after he wasn’t telling himself to the people who owned it. But he was comparatively small. He was over ten good performances... Benny is responsible for two good performances...

All this sort of thing was going on from 1915 to 1924. I can still remember the night he invited Dick Terry up to his younger brother, Don. They put on a show show for the campers. And Benny put on a better one when he got into the act. But also allowed two husky counsellors to punch him around in a face match—just because the kids liked the idea. We even got into a fight with some campers... We’d get out at the campsite and someone would get behind him and throw him into the flaming charcoal... We all loved it. Those good old days.

In the mornings with reveille at seven, Benny would be up with us. We’d be off to the cabins. Benny was always the first... the last... the early riser... He gave the kids their musk, his hair was a pretty untidy attempt to do what they did... The counsellors though Benny knew it would be a hard job to hold them at one night straight to a russian. If they were red, he’d get up and out of it, and if they were blue, he’d get up even earlier and make the night longer. Then Benny was a bellwether guy. Benny used to go back to the campsite to see if he could... Benny Leonard’s three-year com- mission to the camp, the campers were grateful all right. The old men’s man of the band couldn’t do. There were a couple moonlight rides... The rest, not much. The buyers for this new camp capital on its recent connection with the desert city of Leonard.

Shortly after, I ran across an item in the daily paper which explained that Benny Leonard no longer connected with this summer camp. “It is understood,” the arti- cle ran, “on that Mr. Leonard invested $5,000 each summer, and was promised a bounty of $500 each summer—a total of $10,000 which he never received...”

PLAY-OUT TAKEN BY SOPHOMES 45-29

On Tuesday, March twenty-fourth, the Sophomore quintet de- feated the Freshmen five 45-29 to win the Intercollegiate Basketball Championship. The Sophs earned the right to enter the play-out by winning the "first semester serials" when they beat the class by 39 of 29 in the 25-21 score. The Freshman returned this situation to defeat the Sopho- mores, 45-29, and thereby take the intercollegiate honors.

During the first quarter the Sophomore ran up a 14-lead, through the scoring of both Bates Lenox accounted for twenty-two of the total Freshman points. This was a decided advantage but the Sopho- mores, perfecting their zone de- fense in the second period, limited their rivals to three points and at the same time they raised their own count to fifteen. The score at the end of the first half was 17-13.

At the beginning of the second half the class of 38 immediately surged into the lead when they gradually increased throughout the remainder of the game. While the Freshmen made twelve more points, the Sophomores made thirty-three and, to put the contest in their favor, 65-17.

Bates was high scorer for the Sophomore team. His throw- ert, Finkel and Barnett accounted for three and two, respectively. Sophomore scoring honors were shared by Lenox, Stagg and Zane, with ten points apiece.

Finkel made good from two points in the first half for the Sophomores, while Bonds made one.

In winning by the play-out, the Sophomores of 38 led the Sophomore Sports scoring with 12 points. The A.M.T. have 10 points; the Juniors, 8, and the Sophomores, 4.

WILL SPONSOR PEACE MEETING AT ANNANDALE

The newly formed Bard unit of the American Student Union, result of the amalgamation of the Student League for Industrial Democracy and the National Student League will sponsor the Anti-War meeting here in the college it was learned last week.

This will be the second meeting of its kind on the Bard Campus, the first having taken place last November when faculty, students and a representative from Vassar College spoke at a meeting sponsored by the Student Council.

This in the third year of the student movement and the first of the World War. That first one in 1914 drew 2,000 students and the 1915 one drew 12,000 according to estimates. It is supposed that with the new leadership of the A. S. U. the gage this year will be far greater than last year.

The American Student on the Bard Campus has its office in Aspinwall 15 and is under the direction of Mr. Robert L. Clayton '36.

THIS COLLEGIATE WORLD

When Fred Lemmer student at the University of Minnesota met his English professor, Mr. Weaver, they both blushed slightly.

Over a period of many weeks, Mr. Lemmer has broken all records for arriving late to Mr. Weaver's first hour class. His friends have variedly called "my alarm clock is broken," "there was a traffic jam," "my car burst a tire," "finally Mr. Weaver shouted, "Get your head on straight!"

Last week Mr. Lemmer was late again. During the night his house had bursted down.

Governor Alf Landon is not the only Kansas male willing renown for his sense of economy. Take the males at the University of Kansas for example. The men's council has just issued a firm resolution requesting the girls of the campus to share the evening's expense while dating the men. They have gone so far as to formally request the cafe owners of the town to issue separate dinner checks for the women.

"Do not have a false sense of chivalry," the University men were advised by the council.

Mr. Gezner Lectures

On March 11th Mr. Gezner delivered a lecture on the writing of biography before the Writers' Club of Columbia University.

Charlie Barre, veteran Amberst restaurateur, once collected $300 in student debts without a single kilo for backing. His records have been destroyed in a fire.

Heart Metronome was named No. 1 newswrap propagandist medium in a recent University of Minnesota poll.

The city of Cambridge plans to issue a "service charge" if should prepare to add 8.00 in every football, baseball and M.I.T. to over payment of football games and student riots and removal of rubbish.

Bab! Bab! Bombshell Have You Any Heart

New York—(APF)—The two-pound incendiary bomb, containing thermite, will be the real peril in the next war, according to Prof. J. Enrique Zanetti of Columbia University's chemistry department.

"A single two-ton bomber can carry 5000 of these bombs," says Prof. Zanetti, "and if only one in 100 makes a hit, that bomber will start twenty fires within a few minutes of each other.

Thermite is a mixture of iron oxide and powdered aluminum or magnesium, stable if protected from moist air, but reacting violently if heated to a high temperature.
