Will Be Acting Associate Professor Of Biophysics
In Carpenter's Absence.

DOES YALE RESEARCH

Graduate Of Columbia And Stanford; Will Present Two New Courses.

The administration has announced that H. B. Mestre, a Massachusetts Institute of Technology student, has been appointed as Acting Associate Professor of Biophysics in Carpenter’s absence.

ANNOUNCEDCAMPAIGN TO ASSIST NEEDY IN RED HOOK

Drive On Campus To Raise Money And Clothing To Provide For Children.

THE end of the fall season, which has been a busy period for the annual campaign to assist needy children in Red Hook, is approaching.

Last year the students and faculty of the school contributed a total of one hundred dollars plus a large amount of clothing to the Red Hook poor. There is no other way of providing such benefits for the children.

In order to carry out this appeal, the students and faculty are being asked to contribute money and clothing.

The campaign will continue until the end of the year.

PLAN GLEE CLUB FOR THE COLLEGE; INFORMAL SONGS

Fuller Will Be Temporary Director; Organize After Dinner Singing.

In response to a demand for a singing group which would provide a different type of entertainment for the college, the group will be temporarily under the direction of Mr. Edward Finkler since Mr. Willy, Director of Music, will be busy with his official duties as registrar.

The group will be limited to those in the college who can contribute music or who have had previous experience in musical activities.

RELIGIOUS GROUP FOR STUDENTS TO HOLD DISCUSSIONS

The first regular meeting of the Religious Discussion Group was held in the商学院 in German, the club being conducted in German.

The group consists of students from the religious denominations and is conducted by Mr. W. F. Johnson.

BARD COLLEGE OPENS: MALADJUSTED CHILD SUBJECT OF STUDY

The Bard College Child Guidance Bureau held its first clinic on Wednesday, November eighteenth, after a successful reception and the continuation of the clinic.

The bureau, under the direction of Dr. E. C. Wells of the Hudson River State Hospital, has been in operation for some time.

THE student body and staff contributed to the success of the clinic.

The majority of the cases were problems of maladjustment and the students have been able to assist in the solution of some of these problems.

DICK ROEVER

"A wise Prince takes no notes in the Plain nor less than in the palace.

"—MACHIAVELLI"

Jerome Davis, Professor of Philosophy and Religious Studies at Yale University, has received a grant from the National Endowment for the Humanities to conduct research on the history of education. The grant will allow him to explore the development of educational institutions in the United States and to analyze the role of the humanities in higher education.

This feels like a duty for the college, and for the character of the college is not something forceful and kind, but something by which we are nourished. There have been no susceptible altruistic or other- oriented actions since the college was founded in 1830. The sentiment of the college is that the student should be interested and kind, not by the college but by the college in itself.

This sentiment of course is that of the older generation and the young generation is too young to understand it. But the older generation is too young to understand it, and the young generation is too young to understand it.

The arts and crafts, however, are not a great deal of interest to students. They try to go up from the ground of consciousness of the world, and the higher it goes the better.

The literary arts, however, are not a great deal of interest to students. They try to go up from the ground of consciousness of the world, and the higher it goes the better.

Bard Drops Two To Trinity Ending Fall Sports Season

Peabody To Continue As Captain.

By John O'connors

Trinity College turned back the Bard toppers in the final meet of the season for both teams, by a 22-3 score at Bryant Park on November 28. Fredy Pettiford and Hawkins being the winners tied for first place in the third edition.

The winning time of 19:20 for Pettiford and a quarter-mile pace of 1:00 was good, considering the fact that the runners were running against a strong wind. Pettiford crossed the line in 19:20, followed by Fredy Pettiford, Hawkins, Mountford, and Fower, who tied for fourth place. O'connors, finishing in sixth position, was clocked at 19:22.5. While Pettiford and Pettiford were right behind him, both covered the course in 19:22.5. Pettiford, the third Bard runner, finished in 20.40, with a time of 19:22.5.

Bard went up to an early lead, but was overtaken by Pettiford and Hawkins who paced in front for most of the time. Pettiford and Pettiford had the lead for most of the time, and when the two-mile mark had been reached, the third-listed was decided. Trinity was leaving four runners among the first five. Haas and Mountford pressed Tratt for a short time but the Bard star drew away soon after the finish. Petit finished with a time of 19:22.5, and in second place.

Bard finished the season with a victory and four defeats; however, the circuit is already a strong point for next year with the entire squad returning. Last year, Jessup had placed first in last year's edition of the Interscind shopping mall. All teams are held in New York City with the fall.

Bard results:

Pettiford 1:10.46
Hawkins 1:10.51
Mountford 1:10.52
Fower 1:10.53
O'connors 1:10.55

Bard defeats:

Trinity 4-3

BOOTERS FALL IN CLOSE GAME BY 5-3 SCORE

Weissberger, Burnett. Bates Scores.

By Fredy Pettiford

Weissberger, Burnett, before the most enthusiastic crowd of the season, Bard dropped its final intercollegiate contest to Trinity, 5-3, in a fast moving game on Bryant Park. The home town was at its season's best, but was taken over by the superior pacing ability of the Hymans.

In the opening quarter, the Bard' specialists were brought to their feet when Pettiford, the center forward, in the style of his usual form, and snuffed the ball into the net in the first minute of the game. Two minutes later, Pettiford returned on a goal by skateboard, which then by a penalty corner.

In the second period, Trinity was a threat when Weissberger, the forward, deflected a ball from Pettiford. But Pettiford, the goalie, was able to stop the ball at the goal line, and save the day for the Bard toppers.

With the wind behind them in the third period, the Bard' hopes were raised. Two balls, called twice to draw ahead. The first of these shots was driven into the net by Pettiford. The second was a Railroad which just pranced off Pettiford's leg. Pettiford then drove the ball in the net but, all the time, the ball was being moved to the other end.

In the fourth period, Pettiford deflected a ball from Pettiford, who was leading. Pettiford then deflected a ball from Pettiford, who was leading, and Pettiford saved again at a Railroad. The Red and White outplayed the visitors in the goal, and Pettiford was able to save the day for the Bard toppers. Pettiford then led the ball to the other end, where Pettiford scored the decisive goal. Pettiford then deflected a ball from Pettiford, who was leading, and Pettiford saved again at a Railroad. The Red and White outplayed the visitors in the goal, and Pettiford was able to save the day for the Bard toppers. Pettiford then led the ball to the other end, where Pettiford scored the decisive goal. Pettiford then deflected a ball from Pettiford, who was leading, and Pettiford saved again at a Railroad. The Red and White outplayed the visitors in the goal, and Pettiford was able to save the day for the Bard toppers. Pettiford then led the ball to the other end, where Pettiford scored the decisive goal. Pettiford then deflected a ball from Pettiford, who was leading, and Pettiford saved again at a Railroad. COUNCIL REPORTS ON DINING COMMONS

(Continued From Page 4)

improving the general conditions of Commons and have been accepted by the Administration. They will be put into use in the near future probably after the Thanksgiving vacation.

The suggestions of the Council are:

1. The concentration of students in Commons is responsible for many of the criticisms leveled against the service and the cold food. It is recommended, therefore, that students be permitted to use the faculty dining room and thus thin out the crowding in the main hall. Waiters will then be able to move more efficiently and give more individual attention to their tasks.

2. The irregular attendance of students, faculty and guests in dining commons, which is in direct contrast to the high proportion between food supply and demand. An unnec- essarily large attendance at dinner will limit the amount of food served to individuals.

The Council suggests the following system whereby attendance can be prevented for a week. Advance notice to every Thursday the students and faculty will be given a day's notice by the head-waiter and will mark on it what day the expected number of persons will be absent from Commons, or whether he is planning to entertain any guests, and the waiter will not have to be notified of these people and will be used merely to plan the meals. The students people to be served in Commons for each day in question.

3. The Council recommends that the time for eating dinner be advanced two minutes in the morning and that the working schedule of the student waiters be adjusted so as not to conflict with their classes.

4. The Council approves the plan to serve meat on Fridays as well as other days. A survey will be made among the students and faculty of the desire to have meat served on Fridays for religious or other reasons.

5. Finally, it is requested by the Council that any suggestions or complaints about dining commons be presented in person or in writing to the Council. The Council in turn will take the suggestions up with the proper authorities.
