WE ARE THE COMMUNITY'S VOICE

ANNANDALE NEEDS . . .
—10:30 CURFEW FOR MAY DANCE.
—BROADCASTS.
—A TOWN HALL.
—THE SUPPORT OF ITS PEOPLE.

THE RETURN OF SPRING . . .
FLYING is here to enthuse the gardener's heart. All ready in his mind he sees the glorious beauty of a splendor of flowers, with dainty little leaves. All is in the back, as if keeping these colors within their allotted space, hang the bulbs. With girls and white and red roses, been humming in warm air and fattening small black shoots to fatten, dig down into the earth to find the spot where the sun will give the warmth to the seeds, and look after his plants with loving care. All these things are now to be seen in the gardens of every home. A gardener whose work is the care of plants, will have a chance to see his work, and the joy of watching it grow. Gardeners are always busy, but they have a chance to enjoy the beauty of nature.

FOR 10 O'CLOCK ...

We feel it our duty to make public that deeply felt sentiment of us many of us who are in the community that our young people stay out too late after the first of May. Parents, you realize that it is happening. It is doing our city a great wrong when these young people are spending their time in the streets at night. It is not only a matter of health, but it is also a question of morals. If we want our children to be a credit to our city, we must see that they are well brought up and that they respect the rights of others. It is not only a matter of ourselves, but it is also a question of the future of our city. We must do something to prevent this from happening. We must have a curfew for young people in this city.

ANNANDALE, AN INDUSTRIAL CENTER . . .

O PPORTUNITY has come for those who are interested in the industrial field. An Ananda Line Association, consisting of some of the leading industrialists of this country, has found a new way of marketing and profit-making. The association has decided to form an Ananda Line Association, consisting of some of the leading industrialists of this country, has found a new way of marketing and profit-making. The association has decided to form an association of their own, to be known as the Ananda Line Association. This association will be formed to take care of the needs of the industrialists of this country, and to promote the interests of the industrialists. The association will be formed to take care of the needs of the industrialists of this country, and to promote the interests of the industrialists. The association will be formed to take care of the needs of the industrialists of this country, and to promote the interests of the industrialists. The association will be formed to take care of the needs of the industrialists of this country, and to promote the interests of the industrialists.
