BAR DEBATE TO DEFEND MT. ST. VENANT

BARD '11 DEFEATS PANZER, 1-0

From Crowd Seas "Miss Bel for Victory"

Bard's soccer team climaxed the season by winning a closely contested game against a highly favored Panzer College eleven before a crowd estimated at 800 at Alden Field Saturday, November 6. The score was 1-0.

Early in the first half of the game, a shot by Panzer’s forward was deflected, and the ball went wide.

In the second half, Bard defense was almost perfect. In the second half, Panzer’s offense was almost nil.

Late in the first half, Panzer tried to take the lead. Bard defense was almost perfect. In the second half, Panzer’s offense was almost nil.

The crowd was split between those who favored Bard and those who favored Panzer.

The game ended with Bard in the lead by a score of 1-0.

ECLIPSE OF MOON IS EXPLAINED

by PETER A. LEAVENS

Bard's solar eclipse expert, Dr. Peter A. Leavens, explained the mechanics of the eclipse in a lecture at the Bard Theatre Monday night.

The moon will pass in front of the sun, casting a shadow on the earth. This shadow will be visible as a "ring of fire" around the sun.

Leavens also explained the phases of the moon and the different times of the year when eclipses occur.

THIRD CONCERT OFFERS VARIED CHAMBER MUSIC

An enthusiastic audience, not to mention a large number of Bard students, attended the Bard Concert Monday night.

The program included works by Mozart, Beethoven, and Schubert. The concert was well received by the audience.

A review of the concert in the Bard Review (page 10) stated: "An exciting and varied program, with excellent chamber music played by a group of very talented musicians."

EXPERIMENT IN EDUCATION IS OBJECTIVE OF VELLEN COLLEGE

b The newly founded Vellen College is taking a new approach to education. According to the college's president, Dr. Robert A. Black, "Vellen College is committed to providing a challenging and rewarding educational experience for its students."

In the early spring of this year, Vellen College launched a program of "education by experience." This program involves students in hands-on learning experiences both on and off campus.

The school has also introduced a new curriculum that emphasizes critical thinking and problem-solving skills.

A new dormitory was recently completed at Vellen College. It features a learning center with computer labs, a library, and a study area.

The dormitory also includes a large common room, which is used for social gatherings and study sessions.

The education at Vellen College is designed to prepare students for success in their future careers. The college offers degrees in a variety of fields, including business, engineering, and the arts.

In addition to the traditional classroom setting, Vellen College also encourages students to engage in service-learning projects and internships.

A joint appointment was made with the program to provide adequate funding for the next few years. The program will continue to receive funds totaling about $250,000.

The school is also planning to expand its facilities in the future, including the construction of a new science building and an art center.

KAPS BOWL HELP IN GYM TONIGHT

At eight o'clock this evening the 1937-38 Intercollegiate Bowling League will officially get under way as the Kappa Chi Chi team meets the Kappa Sigma team in a 5-man match.

The Kaps were runners-up last year and so tonight's match should be an exciting one.

A meeting of the Interfraternity Bowling League was called last Monday evening by Coach Ackerman for the purpose of drawing up a schedule and rules for the season. It was decided that the tournament should be divided into two tables, the winner of the second for the championship. Names were drawn from a hat to decide who should open the season tonight and the arrangement of the remainder of the schedule was left to Mr. Ackerman.

Each team in the championship tournament gains a point for each correct hand in the season.

The schedule is as follows:

Nov. 19—K.G.K. vs. Help
Dec. 1—Help vs. Delta Kappa Epsilon
Dec. 8—K.G.K. vs. Non-Downs
Dec. 15—K.G.K. vs. Non-Downs
Dec. 22—K.G.K. vs. Non-Downs
Dec. 29—K.G.K. vs. Non-Downs

The total for the Fall Interfraternity is as follows:

Team W T L T
Kappa Chi 9 2 0 0
Delta Kappa Epsilon 3 0 2 0
Kappa Sigma 4 0 2 0
Non-Downs 3 0 2 0
Freshmen 3 0 2 0

COUNCIL DECRESSES CLASS HOOP RULES

The class representatives on the Undergraduate Athletic Council convened in the Memorial Gym last Thursday night and made few changes to the policy that was followed last year.

It was decided that the precedent established last year which bars all Freshmen from participating in the Intramural Basketball and made few changes to the policy that was followed last year.

The schedule will be divided into two rounds, one to be placed before the end of the current semester and the second to be scheduled for the early part of each semester. It was noted that the schedule should be changed so that the average player will play the first two games of the season on the nights they are scheduled and the remaining games on following November thirteenth with one game at four o'clock and a second at 4:00. Dr. Orterby is to be succeeded as Referee by Coach George Ackerman.

The first-round schedule is as follows:

Nov. 30—Seniors vs. Freshmen
Dec. 1—Seniors vs. Sophomores
Dec. 14—Sophomores vs. Freshmen

Proving that the same team does not win both rounds, the winner of the first half of the tournament will play off against the winner of the second in a final play-off for the championship.

New York
Third Concert
continued from page one

in dynamics, was given by Dorothy Fuller.
The quartet played London works arranged by Frank Bridge with
vivacity and style. In phase their
plucking might have been more
even, but the result was impres-
sable was good. The Cello Quin-
tet which followed was not so suc-
cessful technically, the balance of
the instruments not quite being what
it should have been. A string group
with two violins and one viola was
particularly well rendered.

Leavens Talks Before
Amateur Astronomers
An illustrated talk tracing the
evolution of the new ob-
server's class, and Peter A. Leavens,
Bard, '45, before the Amateur
Astronomers at the Ameri-
can Museum of Natural History
in New York on November 3.
Mr. Wallace talked first, reviewing
the construction of the building and
the instruments used in making the
telescopes. He also emphasized the
educational value of the observatory,
explaining its place in the school
curriculum. Astronomy classes will
then take in the working laboratory.
