A PACIFIC IS BRAVE . . .

Mr. Paul Harris, secretary of the National Council for the Prevention of War, who spoke to a large audience of students and faculty members yesterday, said that despite the fact that there are several points on which they and we disagree, he is convinced that the most important issue facing the nation today is the reunification of the United States. Violence solves nothing for Mr. Harris. He said that in order to bring about a lasting peace, we must try to understand the leading factors in the conflict.

We have no wish to become engulfed in politics, but we must come to terms with the other side. We must face the fact that we are not alone, but that we are part of a larger world.

"We are a little more honest, better able to use the tools of reason," Mr. Harris said. "Let us set aside our differences and work together for a better world."
