New Four Sessions Plan Accepted; 4-Dropped

In place of the Four Quarters Plan, which has been in existence at Bard for several years, a new three-term system is to be implemented in the fall. This plan is the result of an extended investigation into the advantages of a three-term plan, as advocated by many educators. The new plan is designed to allow for a more flexible and comprehensive educational program.

The new plan will consist of three terms each year, with each term lasting approximately 13 weeks. The terms will be named Winter, Spring, and Summer, and will be separated by vacations. The new plan is expected to provide a more balanced educational experience, allowing students to explore a wider range of courses and subjects.

Benefits of the Plan

- Flexibility: The new plan will offer students greater flexibility in their course selection, allowing them to take more courses per term and to complete their degree requirements more quickly.
- Balance: The three-term plan is designed to provide a balanced educational experience, with each term focusing on different subjects.
- Cost: The new plan is expected to reduce the overall cost of education for students, as they will not have to pay for an extra semester of tuition.

About the Plan

The new plan is the result of a three-year investigation into the advantages of a three-term system. The investigation was conducted by a committee of faculty members from various departments, who examined the advantages and disadvantages of the plan and recommended its adoption. The new plan is expected to be implemented in the fall of the upcoming academic year.

Four In Four Term Fire

On the evening of Friday, the fire department was called to respond to a fire in the historic Oren Hall. The fire, which started in the basement, quickly spread to the upper floors of the building, causing significant damage. The fire department worked tirelessly to control the blaze and prevent it from spreading to nearby buildings.

Oren Hall Burns To Ground; School Insured For Damage

The fire which raged Oren Hall last week did almost $100,000 worth of damage, the school has announced. The school was able to recover all of the loss, thanks to its insurance policy.

Four in Four Term Plan

The new plan, which was introduced last year, has been well-received by students and faculty. The plan allows for a more flexible and comprehensive educational experience, with each term focusing on different subjects.

Typical Calendar

- Fall (16 weeks) - Winter (16 weeks) - Spring (16 weeks) - Summer (7 weeks)
- Off-Campus Credit
- Freshman (18) - Sophomore (22)
- Senior (124)
- Graduate (120)

Faceless Passes 3 Resolutions

At a faculty meeting for resolutions of the Independent Study Funds period, on May 13, three resolutions were passed by the faculty. The resolutions dealt with the use of off-campus study programs, the development of an academic program, and the establishment of a new faculty committee.

First Resolution

- The faculty will recommend that the college develop an academic program that is based on off-campus study. The program will provide an opportunity for students to study abroad or in other locations, and will offer a variety of courses and subjects.

Second Resolution

- The faculty will recommend that the college establish a new faculty committee that is responsible for overseeing the development of the academic program.

Third Resolution

- The faculty will recommend that the college establish an academic program that is based on off-campus study. The program will provide an opportunity for students to study abroad or in other locations, and will offer a variety of courses and subjects.

Oren Hall Burns To Ground; School Insured For Damage

The fire which raged Oren Hall last week did almost $100,000 worth of damage, the school has announced. The school was able to recover all of the loss, thanks to its insurance policy.

No Arson Found

The fire inspector from the National Board of Fire Underwriters inspected the ruins of the building and could find no evidence to support the theory of arson. He could not even concur where fire had started. In cases where the building is brought to the ground, it is extremely difficult to find any clues in the wreckage.

Twelve Passes

Twelve of the school's insurance policies were involved in the fire. The Insurance Adjustment Bureau and the school determined the cost of reconstruction for the building, which was about $100,000. The cost includes the price of materials, labor, and other expenses.

Although other fire departments were dispatched during the night, some members of the Bard Fire Department remained on duty throughout the night.

New Structure

The new building will be erected at the site of the old Oren Hall, which was destroyed by fire last year. The new building will be similar in size and style to the old building.

Dr. Gray, Past Iardpres, Dies

Dr. Charles Gray, President of Bard College from 1904 to 1934, died yesterday, May 16, 1958. He was 87 years old.

Dr. Gray served as President of Bard College from 1904 to 1934 before becoming a faculty member. Under his leadership, Bard College continued its pioneering role in the field of education and the arts. He was a pioneer in the field of modern music and was a champion of the arts.

Erik Riddles Mills Oren Burns

Erik Riddles, a recent Bard graduate, was killed in a car accident on the way to Oren Hall last night. The accident occurred on the way to Oren Hall to attend a faculty meeting.

Arson In 4th Fire

The fourth fire this term, a small blaze under a deck near the quarto, occurred one month to the day after the Oren Hall fire, was put out by the Bard Fire Department. This fire differed from all others this season, however, in that definite proof of arson was found. President Capell announced that it was evident that some sort of fire acceleration had been attempted, but the method used was specifically eliminated as a possible source of fire.

Special accident proofs were obtained to protect the campus. Additional student and professional penalties were instituted as a result. The school hired a private detective to investigate this matter, and the Bard Fire Department, under the direction of Captain Rudolph von Bürkel, was called in from the New York Fire Department to conduct the fire department of the investigation.

In the ten minutes it took the Bard Fire Department to arrive, the fire (Figure 1) ran a house down from Faculty Circle and fought the fire for two more days, until the Billy Baker (Figure 2) was stationed nearby. The school's fire engine, which was in the process of being built, was used to fight the fire. The school was able to avoid the report of these events.

Heilbrunn Gives
John Bard Lecture

The Science Division on the evening of May 29, presented its third annual John Bard Lecture, "The Bats of Life," a title used by Leighton, an biologist of the last century.

About Dr. Heilbrunn

Dr. Heilbrunn is a Professor of Zoology at the University of Pennsylvania. He received his Ph.D. from the University of Chicago. In his affiliation with the University of Pennsylvania, Dr. Heilbrunn has trained fifty graduate students who have received degrees under his tutelage. He also serves as the editor of "The Bats of Life," a series of articles on the biology of bats.

Other Guests

Also present at this lecture were Arts Festival At Bard And New York

The Bard Dance and Drama Department was presented in a program on the week of May 15, in the annual Bard College Festival of the Arts, which was held at the 23rd Street YMCA Sunday, May 15. The program included a musical composition of the Arabic music of The Love of the Narnet and the Swedish song of The Bards, and the musicals of the Drama and Dance Music.

New York Performance

After an open house rehearsal on May 14, and two performances, May 15 and 16, the annual Bard College Festival of the Arts was held at the 23rd Street YMCA Sunday, May 15. The program included a musical composition of the Arabic music of The Love of the Narnet and the Swedish song of The Bards, and the musicals of the Drama and Dance Music.

Participants

The choreography for House of Dooms was done by Mrs. Ann Eskin, settings by Paul Garside, costumes by Thomas Garside, and lighting by Thomas Garside.

First performance was on May 15, and final performance was on May 16.

ST. STEPHEN'S STARTS SEMINAR

The St. Stephen's Society has implemented its usual function of securing lecturers for the Bard College community by establishing a weekly series of eight lectures, organized by Don Greenberg, the chairman of the committee. The series includes eight speakers, each of whom will deliver a series of lectures.

New Track

The first meeting of this group is to be held on the campus, with the purpose of bringing together students from different colleges who are interested in the study of the sciences. The lectures will be given by professors from different colleges, and the topics will be chosen to cover a wide range of scientific fields.

Bard Students Attempt Science Conference

Several students at Bard College have been working on a project to establish a science conference on Bard College campus. The conference will bring together students from different colleges to discuss various scientific topics.

Newspaper

Electoral College of Bard College is in the process of selecting the candidates for the position of President. The candidates will be chosen based on their academic achievements and their ability to lead the college.

Arson Investigation Procedures Rouse Students

By Aaron Snyder, Chairman of the Committee

Last year it was decided to set aside a thousand dollars for the establishment of the Arson Investigation Procedures Rouse, or the AIPR. This year, the AIPR student continues to strive for excellence in the field of arson investigation, and has been successful in recruiting some of the finest minds in the community.

In order to properly investigate an arson case, it is necessary to have a thorough understanding of the science of arson. This involves not only the examination of the scene itself, but also an understanding of the behavior of the arsonist. The AIPR student has been working closely with Dr. Robert Birch, a leading expert in the field of arson investigation.

The AIPR student has been conducting experiments in order to better understand the behavior of the arsonist. These experiments have involved the creation of fires in controlled environments, and the analysis of the resulting patterns and evidence. The student is working closely with Dr. Birch to develop a new method of arson investigation that will be more effective in catching the arsonist.

The AIPR student is also working on a project to develop a new arson detection method. This method involves the use of a special chemical that can be applied to the scene, and will react with the arsonist's fingerprints. This will allow for a more accurate and efficient way of identifying the arsonist.

Thus, the AIPR student has been making significant progress in the field of arson investigation. With the help of Dr. Birch, the student is on the verge of developing a new method of arson detection that will revolutionize the field. The student is looking forward to presenting this new method at the next AIPR meeting.
Softball Squad Plays Local Teams

The Bard College softball team, under the direction of Coach Charles Price, is already well into its spring schedule. Several upcoming games are against local teams, including the local Red Hook team, Poughkeepsie Community College, and Kingston High School.

Interviews

The team has been braving the early-season weather to prepare for upcoming games. Coach Price has emphasized the importance of maintaining a strong team spirit. "We've had our share of challenges, but the team has really come together," he said.

Uppers Win Final Basketball Game

The Janes and Seniors defeated the Freshmen and Sophomores, 70-67, in a basketball game held at the arena on Sunday, March 28. The game marked the close of the year's basketball activities at Bard, followed by a chance to celebrate.

High Scorers

Bob Tamburina led the upper college with 24 points, and was named game MVP. The Janes' Susan Schwartz scored 20 points for the team. Tamburina, Schwartz's 20 points were second high for the upper college. Robin Klar scoring 17 points for the seniors and was named game MVP.

Bard Rejoins National Basketball Association

By Mary Rice

The basketball teams at Bard College have rejoined the National Basketball Association (NBA) to reestablish Bard as a member of the league. The move comes after the university determined that they were unable to competitively field a basketball program without the support and resources of the NBA. This action will allow Bard students to have a more meaningful experience in the sport.

Membership

The NBA consists of several hundred colleges and universities across the country. Membership in the NBA is limited to institutions that can demonstrate a strong commitment to providing high-quality basketball programs. Bard believes that its move to join the NBA will provide its students with a unique opportunity to experience the sport at the highest level.

Career Day Successful Better Yet Next Year

Career Day, Bard's new project designed to acquaint Bardians with the career opportunities open to them, has been held on the campus with great success. The college invited representatives from various fields to speak, and afternoons sessions were held on the campus. The event was sponsored by the Career Center, the Alumni, and the Dean of the College.

Lunchroom in Faculty Dining Room

A successful part of the program's was lunch held in the Faculty dining rooms, during which the students had an opportunity to speak personally with some of the guests. The representatives attending the lunch were representatives from various fields. The representatives attending the lunch were from various fields.

Plans for Next Year

The project was judged quite successful by the evaluation committee. Though plans for Career Day have not been finalized, it is expected that similar events will be held in the future. The college would like to thank all the students, faculty, and staff who contributed to the success of the event.

Tennis Players Begin Season

The Bard College tennis team is on its way, Coach Charles Patrick told Stars, "We have a strong team this year. We've added a few new players and expect to do well in the conference."

The first match was played on May 23rd. So far, there have been three matches, with the team winning two and losing one, with the Poughkeepsie Tennis Club. The team's next match is against St. Lawrence.
