RECITAL CRITICISM

Monday evening, May 14, the student body had the enjoyment of a return recital by Pearl Sutherland Ideler, pianist. This time she was accompanied by Doris Humphrey, Denishawn dancer, whose performance occupied two-fifths of the entire program, entirely insufficient to meet the demands of her audience. The vigorous applause which greeted the efforts of the dainty little lady is enough on which to base the prophecy that she will be asked to return here. Miss Humphrey, as she herself stated, does not adapt a dance to a selection of music, but rather seeks really to interpret the composition into the expression of her art. At her St. Stephen's performance she succeeded entirely.

That this college needs an auditorium suitable for such events was brought to the fore again last Monday night. Under the direction of President Bell some attempt at lighting effects was done, is addition to a drop hung at the end of the gymnasium and on which the lights were than what it did.

Mrs. Ideler sustained her popularity here by her performance. Even excels, for a good accompanist is a treasure. However, in her solo work, weakness for them.

DOGMATICS

(Being the reflections of the College Dog)

HIS FIRST EPISTLE

Dear Laddie Boy:

I've arrived! Prexy invited me up to the house on the hill the other day. I don't suppose you can appreciate my spirit of elation since you are now the chosen pet of the heir apparent. But for me, a common proletarian dog, first the protege of a perennial English professor and now a waif of the campus, such an experience was overwhelming.

But Prexy had a bone to crack He received me with his genial smile and his searching stare, and allowed me to make myself comfortable on one of his nice thick rugs-and fulfilled my suspicions by popping a direct question on me.

"Jack," he asked, "What do you think is wrong with this college?"

Imagine asking me, the dog of the institution, what is wrong with the place! But my canine blood didn't fail me. I started up, braced myself as well as I could-for I'm aging fast-and barked away.

"Prexy," I began, "Do you mean to ask an heirless airdale to air his views on collegiate problems? "Yes, Jack," answered Prexy, "You have been here for four years now. You have had better opportunities to make observations in both chapel and classroom. You must be well informed."

You know, Laddie Boy, when Prexy spoke of my four years stay here, many pictures passed before keepsie and stand along the gridiron, feeling the thrill of being college men. The glorious bonfires after a tell us of another victory.

But, Laddie Boy, I've heard a lot of talk concerning the fact that St. Stephen's is no longer a name unto itself; but to it has been added the name of Coumbia University. You know how large that place is. Think how it will add to the number of the Alumni of St. Stephen's! As I recalled that fact, standing there before Prexy, another picture of a future St. Stephen's formed itself in my mind. I saw our Alma Mater loosed from the limitations of a small college. She had football, prosperous national fraternities, more students -everything that makes a fellow glad that he's a college man. I realize, Laddie Boy, since I am graduating this year I won't be privileged to enjoy the New St. Stephen's; but that didn't effect my optimism as I said to the President:

"Prexy, there is nothing wrong with this college."

Dogmatically yours,
