But, despite the feeling of rejoicing over work completed and the feeling of good fellowship and renewed brotherhood with those of the alumni who have come back to us once again, the first two weeks of June should be a thoughtful time. Not only those who have succeeded in going up to higher classes, but more especially those who are members of the graduating class ought to strike a mental trial balance of their educational assets and liabilities. For, unfortunately, there are too many people in the world outside who for various reasons do not believe in a college education. Many of these are those hard-headed old fellows who have risen only through experience and have climbed high. When an applicant for a job appears before one of these, it is not so much a question of one or two letters of the alphabet appended to the applicant's name as it is a question of whether or not he will make good. At one time the college degree carried with it extraordinary prestige; now it is almost a necessity, just as the once-necessary high school education is now a necessity for college training.

The sorry able exhibition of lacrosse by our fact is that many men go out from college each June without a single idea of what they will "take up." There have been such men from St. Stephen's. These should remember that the indefinite life often leads to drifting: drifting leads to discouragement and failure.-M. P. C.

was limited to about two weeks, consequently the team was not in proper trim for the opening game.

The schedule opened against Yale, one of the strongest teams in the East. St. Stephen's played an exceptionally fine game on this date, holding Yale to a score of 9-3.

The second game of the season was played against Springfield, a less experienced team, on Memorial field, Poughkeepsie, where the Saints have never known defeat. This game had a slow start but a very snappy finish. We carried the ball to their territory and kept it there practically the entire second half. This game finished with the score 6-2 in favor of St. Stephen's.

The following week the local team started on a three day trip to play against three strong teams. N. Y. U. was met the first day. The Saints played a slow but consistent game and lost this game by the score of classed from the start to finish. A beautiful exhibition of lacrosse was displayed by Swathmore, who won 17-0. The next day our men met the fast team of the Montclair Athletic stars. Here they suffered another defeat. In a field covered with ash piles and mud puddles the game was played for twenty minutes in the utes' rest between halves the game was continued, but was called at the end of fifteen minutes due to the heavy rain. Montclair was victorious by the score of 4-1.

The following week the team journeyed toward New York again and met Stevens Tech at Hoboken. The team. By the poor playing Stevens was given a lead of 7 goals. In the second half we tried to redeem ourselves and held our opponents to 3 goals. The score ended 10-1 in favor of Stevens. Last year we defeated Stevens on Memorial Field and will endeavor to do the same next season.

The season was brought to a close with two home games, Lafayette on May 10th and Williams on May 12th. In the first game the St. Stephen's team was slow in getting started, This afforded Lafayette a very comfortable lead in the first half. In the second half the home team played a much better game and nearly tied the score. Some are of the opinion that the game ended 7-7 as one of the balls shot by a St. Stephen's man went through the goal net. However, the goal judge ruled that it went over instead and the score stands 7-6 in their favor. Then for the Williams game. This was played the week-end of the Senior Ball. With all the lady friends cheering from the side lines the boys played the best game of the season. At no time was the outcome of the game in doubt. They played as a

up the long rope and started cheerfully down the Annandale road. The sophomores, just as cheerfully climbed aboard various conveyances and rode to the scene of the conflict.

Just as the spectators reached the river the college crew put in an appearance, coming down the stream at the rate of two strokes a minute. MacKean was cox, Kroll stroke, and Burbank number two. These men stretched the rope across the river, and woe, lo, and what not-the rope was too short. The freshmen went into two more conferences. Finally the place was decided upon. The Annandale seamen transported the sophomores across the swirling deep without mishap. In the meanwhile the freshmen, after three more class counsels, were ready to pull.

Coxy MacKean gave the word and with a "yo-ho" the teams gave a pull. The rope strained, the men grunted, the first man on the frosh team slipped, the second slipped, two more were in the water, and then all was finished. The others of the defeated class were driven into the water, and after much blowing, puffing, splashing and shivering, the epic contest of 1928 was over. Frosh "dinks" are still in evidence.
