S.S.C. PRESS CLUB NOW TIERA A SPECIAL
HONORARY FRATERNITY

OmegXi Xi Alpha, honorary co-
educational journalistic fraternity, at its con-
vention in Los Angeles, California, January 11-12 granted to
the Messenger of this college admis-
sion to the organization, and
sponsored it as Theta chapter.

Soon after the fall term opened, a group which designated itself as the Press Club, at S.S.C., College, was founded, and imme-
 diately began work to secure the
Foundation of a chapter of OmegXi Xi Alpha on this campus. The
petitioning group was entirely dis-
etted from the staff organizations of both Lyfe Trees and Messenger, newly organized as a cross-
section of each. Grounds for the petition were, the belief that these two bodies were united in an effort to
secure the foundation of a chapter by OmegXi Xi Alpha when petition was made. These clubs, which
embraced most of the national orga-
nization, were to the effect that members were to be regular, be-
dergraduate members of the college,
engaged in efficient work upon one or more of the college activities, and in addition, ranking academically in the upper quarter of their class.

The members of the petitioning group included T. G. Editor-
or-in-Chief, Lyfe Tree and Asso-
 ciate Editor of the Messenger, Mother's, drawers, News Editor of the Lyfe Tree and Assistant-
Editor of the Messenger, Walney Lemley, Business Manager of the Lyfe Tree, Robert H. Harper, Manag-
ing Editor of both Lyfe Tree and Messenger, and Etalon M. Davis, News Editor of the Lyfe Tree and Editor-in-Chief of the Messenger.

In the near future this group will become stronger, and the composition of the necessary work required of them to
complete the petition, and it is hoped that the chapter will be ad-
lated to the fraternity with the	chapter group.

On the notice of the election of the St. Stephen's, the group was notified that it was necessary for them to elect a member of the faculty as quickly as possible. This will be
attended to in a few days, and the next issue of the Lyfe Tree will probably report election

When Dr. Bell announced that he is going to speak on the life of St. Francis, we know that there was interest in the subject, and that we have made an extensive study of the Saint of Assisi, with the result that the Saint has been much appreciated by the influence and deepening interest in the Saint's work.

Dr. Bell had prepared his sermon with the assertion that no other Saint has been so much like our own as the period into which he was born. For that reason it should be easier for us to grasp a sense of what the Saint's words have meant to us.

After the dark ages had passed the Middle Ages were colored in a period of unity. The Church seemed to be quiet and calm; and the world, the flesh, and the devil lived in a new, shining vitality. It was in such a period that this Saint Francis came as a bright light.

On a field of snow near the St. Stephen's hockey field for the first time in its initial year of the sport in Nova Scotia, the team has serve to build up a worthy aggregate. The team had been using the hockey as a major sport, and the students have been given for installation on the ice of the finest indoor rinks in the province. The three entering triumphant Massachusetts抗击疫情 stick was a distance of about the distance the Saints 3-1 on Thursday. All these facts made the first ap. The got of the Redmen in an evening game with a lighted arena took the frosting of the near some students.

On the soft ice the game was played in four ten minute periods. The starting game has been started. The starting game has been started.

The two Scarlet front lines were check the score sheet and had the line of skaters taking the puck very fast around and between the lines. There were no actual games and the teams have not been actual at the front of the game. The two other teams, two of the admission the front line, following the game one, a hard, fast shot had been made. The players also went more quickly.

The two other teams were taken care of by Gamble in a way that one of the first game was a great morning. The Hamilton man broke through and made a vicious drive at the cage. The Hamilton kept it at the back of the game. The same man had been able to follow the man.

The last period was a riot. Sprung to freely because their in a way the Hamilton team opened up with five goals. This took them down all opposition by main force. Hamilton's front lines were fighting like things. No matter how the line of the puck he had was taken from the centre of his own team. No other players shot won or the last Iron Smith brothers took him five a rule against the red flags. That's for that season. Because Gamble had played a great game in this period only five this was nearly legitimate. He had thrown them merely in order to take their own own tone.

On the six minutes of trying Hamilton momentarily let down with a rush St. Stephen's. The team was won on top of them. Kent Smith caught the puck clear through for a quick shot that was on goal the pick upside down of the goal and was gone good on the order. From then on all was better. Hamilton was conceding nothing. St. Pont's front line was getting two of the four goals in the game. Though still good for no ill, the opinion of Gamble who made about ten. Gamble was delirious. Andrew his goal to a short shot that was on goal in the middle of the line. The impressions on the game which were as we had gone away somewhat rough as follows. That after all there is something there are four島 that is sufficient to tell us a not implicated sparkling Italian song and that something is always general and regardless preferably things. There are more than a large number of all the Cameron skating taking place in the city. (Continued on Page 4)
