Basketball Most Successful Of Recent Years—Many New La- crosse Men As Season Opens.

One may look back over the basketball season with quite a bit of satisfaction. The team did not live up to expectations, but the year was the whole a success judging by the number of games played and the number of new players.

The star player for the season was John Ricciardi, who scored 20 points in the championship game and led the team to victory. He was the most reliable player on the team and his presence on the court was a great asset.

The team will continue to practice throughout the season, and we can look forward to a great year of basketball.

The annual Oratorical Contest to be Held in May This Year

The annual oratorical contest will be held this year on the evening of May 21. It has been decided to hold the contest on the campus of St. Mary's on April 15, 17, and 20. The contest will consist of several rounds, each round being held on a different day. The judges will be Mr. P. H. Smith, Dr. Henry, and Mr. Libaire. The preliminary round will be held on April 15, with the final round on April 20. The contest will be open to all students of the college.

The purpose of the contest is to encourage students to develop their speaking and writing skills. The contest will be judged by a panel of judges who will evaluate the contestants on their presentation, delivery, and content.

Contestants are encouraged to prepare speeches on any topic of their choice, and to use a variety of sources to support their arguments.

The prize for the winner will be a trophy, as well as a cash prize of $50. The winner will also be invited to give a speech at the annual banquet.

The contest is open to all students of the college, and applicants are encouraged to participate. Applications are due by April 10, and the final round will be held on April 20. For more information, please contact Mrs. Smith in the office of Student Affairs.

College Receives Fourth Gift of Endowment Fund

Junior Representatives Elected To The Council

Four Men To Sit Without Votes In Preparation For Next Year

A recent innovation in student government was the election of junior representatives to the Council. This has been the first time that junior representatives were elected to the Council. None of these representatives have votes, but their presence is a valuable asset.

The representatives have been elected by the junior class, and their role is to provide a link between the junior class and the rest of the student body. Their presence on the Council is an important step in the development of a more democratic and representative student government.

Preachers For Rest Of The Semester

May 5th—The Rev. William W. Smith, Rector of St. Mary's.

May 26th—The Rev. Dr. Frederick Fullerton, Rector of St. Mary's.

June 12th—The Rev. Dr. Frederick Fullerton, Rector of St. Mary's.

CAMPUS CLIPPING

Co-eds at the University of North Dakota are governed by a group of women who gather every night at 7:30. The reason for the group is the desire to foster friendship among the female students. The group consists of all female students who are interested in socializing and enjoying the company of others.

The group meets in a different location each week, and they usually spend the evening playing games, watching movies, or simply chatting.

The group is open to all female students at the university, and they are encouraged to participate as much or as little as they wish. The group provides an opportunity for students to connect with others and enjoy each other's company.

Student government to the 'n't degree in order to be tried at Has Col- leges of North Dakota, the students have already been required to participate in the government. The reason for this is to ensure that the students are fully involved in the decision-making process.

Volume 1 of the history of the Americanization of the University of North Dakota, published in 1894, is available in the University Archives. The volume was published in 1894, and it contains a detailed record of the history of the university up until that point.

The book is available through the university archives, and it is recommended for anyone interested in the history of the university.

For the benefit of all students, the university archives have created a website where students can access the archives online. The website is located at archi-

Love makes the world go round; but for that matter, so does a good smoke of tobacco juice—Yellow Crab.

The administration of Washington and Jefferson College has given notice that no student whatsoever, whether he be graduated from the General Theological Seminary this coming May, shall receive his diploma unless the following regulations are complied with:

1. No diplomas will be issued to students who have not taken the examination for Bachelor of Science in Religion.
2. The examination must be passed before the diploma will be awarded.

**Diplomates were instructed because some college graduates need a written evidence that they are educat-

There are sixty-three college radio stations in the United States. This marks a tremendous advance. Programs of educational value are coming straight from the most important radio station in the country.

If Cornell will place the women students in a college of arts and letters, and will abolish fraternity and sorority, it will be given a million dollars. The offer comes from a graduate of Cornell who would have it used to build a library, not to support the Greeks.

ted by 2 per cent of the students' money. About five dollars a week is spent by the average college student for non-essentials.

For Feiring Woul Abolish the Alarm Clock

Our Nerves and Health Are in Great Danger

"The alarm clock is an institution which should be abolished," stated Dr. Feiring, President of Washington and Jefferson College in an address before the American Psychological Association and the American Psychological Association.

Dr. Feiring was accompanied by Dr. Williams, Director of the Research Department of the University of Virginia.

Now that the ithol of peace has been signed, abolition of all alarm clocks and, of course, all of those clocks in the neighborhood which is likely to bang off the hours in variegated keys to wake the sleeper, is only a question of time. No fruit, AX will tell you. We are awake and wake when we are told— once a month or so.

For a period of about six weeks.

That would be the safest way to preserve our health and make our nervous systems against such a so-called alarm clock shock.

But in keeping with this ruling to do away with alarm clocks, the University of Virginia has made a law excusing all students who miss a class by being late to give an excuse. Naturally, if we throw out our old clocks, we must throw out our new ones.

Williams advocates, just like a cat in the manger, the use of a clock to control the morning. But, in the end, we must give up the clock, and no one is going up than those having fewer clocks.

It is further stated that students will no longer be allowed to come on campus when it is still dark, and that they will have to follow the new and improved schedule of hours.

The University of Virginia has designed a new idea, whereby they may aid their graduates. A new publication is to be issued that is different from anything that has been attempted before. It is a quarterly magazine called the University Placement Review.

P. A. L. girls explained a bachelor as a fellow who didn't have a car when he was young.

A movement for the total aboli-

Feiring has been the center of attention for the last few years, the main topic being his wave of criticism against the modern college. In a speech made recently, he stated that the modern college is a failure and is only serving to harm the student.

FRATERNITY ROW

Kappa Gamma Chi
On Tuesday afternoon, March 8, at 4:00 P. M., the following mass installation exercises took place in the Kappa Gamma Chi Fraternity, 321 South Florida Street, Baltimore. The ceremonies, conducted Leonard Hamly, Harry Gamble Dudley and J. A. Curtis, were conducted by the sun of the chapter. The Fraternity is under the direction of Mr. J. A. Curtis, 321 South Florida Street, Baltimore.

Campus Clippings

American colleges are not the only ones that have their own campus. Illinois is no exception to this rule. Its campus is 100 acres in size, and is located in the heart of the city. The campus is surrounded by beautiful woods and the Ojibwe River, which flows through it. The campus is a perfect place for relaxation and recreation.

The Fraternity and Sorority Councils are both active on campus. The Fraternity Council meets every Thursday at 7:00 P.M., and the Sorority Council meets every Tuesday at 8:00 P.M. Both councils are open to all members of the university.

For housing is added to the athletic program of St. John's College, Annapolis. The college authorities have added a new residence, to be located on the campus.

C[type]e will prove beneficial to both, instructors and students, alike. The new residence is a two-story building, 40 feet by 80 feet, and will accommodate 200 students.

All but one of the twenty-five fraternitymen at the University of Texas have voiced no discontented housing situation.

And so advertisement concerning the Greek Watch: It's about time.
