Carl A. Garabedian

Twenty years ago, while he was a Freshman at Tufts, Dr. Garabedian began to play the organ, and has continued his musical work with Mathematics at the College. His professors shocked their students by their remarks about this, but his teacher's opinion of his music has always been favorable. The student has made progress in the organ, and has had several concerts this year, at which he has always made a good impression. In the future, he plans to continue his studies in the organ, and to take an active part in the musical life of the College. He has recently been given the position of organist at the College, and is looking forward to a promising future in this field.

KAL KOOL

Carnegie Endowment Gives Annual Report

Student Leases Formed For Ailgation Aid and Peace

Twenty years ago international peace existed only in the pipe dreams of idealistic men. But it is not impossible for the future that the nations may come to an understanding, and that a world at peace may be achieved. The Carnegie Endowment for International Peace was established to promote this goal, and has been active in promoting international cooperation and understanding.

Program for Senior Weekend

Friday: 7:00 P.M. Dinner in Preston Hall.
9:00 P.M. Formal Dance in Memorial Gymnasium
Music by Joe Moss and his Meyer Davis Orchestra.
12:00 M. Intermission and Midnight Supper in Preston Hall.
3:00 A.M. Dance Ends. (Girls must be in the dormitories by 3:45)
Saturday: 12:10 P.M. Breakfast-Luncheon in Preston Hall.
2:00 P.M. Varsity Baseball Game with Clarkson Tech.
4:00 P.M. Dinner in Preston Hall.
8:00 P.M. Fraternity Dances.
12:00 A.M. Great Dance. (Girls must be in the dormitories by 1:00).

Week End Guests

Following is the list of those attending the prom, with the names of their guests.
Miss Julia Cram of Yonkers, N.Y., and her guests, Mrs. J. C. Hopper, of Yonkers, Mrs. J. C. Hopper, and Miss Mary Hopper; Miss Blanche Baram, of New York, and her guests, Miss Helen Baram, and Mrs. J. C. Hopper; Miss Margaret H. Hopper, of Yonkers, and her guests, Mrs. J. C. Hopper, and Miss Mary Hopper.

Newspaper of the week

"Tomp" Riley has relayed the John Hopkins scholarship

Jack Kingman has received an official notification from Miss Bessie Hopkins of the Institute of Science of the University of Chicago that he has received a special scholarship. It is a very great honor for Jack, and he is very much pleased with the news. His friends are very proud of him, and are looking forward to seeing him at the next meeting of the Institute.

University Inn-Press

Legman Seminary every mont

At 9:45 P.M., the students of the Seminary will meet in the University Inn every Mont. The occasion will be the annual celebration of the college. Those members of the faculty who are present will be present on the occasion, and the program will begin at 9:45 P.M.

The annual celebration of the college will be held on the first Monday of the month. The purpose of this celebration is to give the students an opportunity to reflect on the achievements of the college, and to consider the future of the institution.

The dollar bill on the collection plate is expected to begin showing signs of wear.

(Continued on page 5, col. 5)

Senior Weekend

Great Success

Dancing From Nine Till Three.

Music By Meyer Davis.

Baseball Game With Clarkson Tech.

Fraternity Dances In Evening.

Senior dinner served at seven in Preston Hall. The程序 for Senior Weekend included the annual celebration of the college, which was held in the gymnasium. The program included a speech by the President, followed by a dinner and a dance.

The formal dance was held in the Memorial Gymnasium, and was attended by over 500 guests. The music was furnished by the College Orchestra. A letter from that well-known orchestral leader, John H. Tinker, stated that he "will do everything in his power to make this an unforgettable experience." The evening was considered a great success. The attendance was great, and the atmosphere was electric. The program included a dance, a reading, and a speech by the President. The dance was held in the gymnasium, and the reading and speech were held in the classroom.
The Lynx Tree

EDITORIAL

Village Atmosphere

As our readers will perhaps notice, the Lynx Tree has again made an attempt to change its journalistic policy, if we may be allowed to describe it as such. The change is accompanied by an explanation, we feel that one is due for this issue.

The only apologetic which should be tendered because of the irregularity of our appearance in print should come, not from us, but from the student body, which includes us all. This is the official organ of the campus, and as such it mirrors the attitudes and sentiments of the college. The student body has been disinterested, subject to half-hearted moments of vaporous enthusiasm, and destructive impatience. It has been true that the apathy and impatience which we frequently attempt to pursue a course which would attract interest for the very good reason that it is a hoary, floppy collection of negativity which refuses to recognize any worthy trytowards its destruction, or to create the illusion of those trials with worthy intentions.

Now, then, there is no movement, however futile, to gather in battle with public opinion.

The question of the how and why of the general impassiveness of the campus toward all matters whatsoever is never discussed save in isolated gatherings where heated fancies desperate course its existence. If we were attending a graduate school or were on a much higher average scholastic level than we are, this disinterest might easily be explained, but leisure time here is geared to far less gainful-and-woolly things than meditation, reading, or research. God forbid that we should adopt the so-called typical American college spirit, but may God forbid that we spend our time reclining in a village atmosphere, whistling at decks of cards, hosting in groups, and passing petty gossip. The reason is obvious. Certainly the country college offers leisure, solitude, beauty, and an opportunity to soak in the breadth of open spaces and outdoors, as a small community, the characteristic, both good and bad, of all small villages. And all small villages are in a rope close to death—a step subject to what is its value. Our campaign, however, where opportunities are offered through outside activities, are not a step to death. We see up those activities, and those who are down somnambulists.

Gentlemen and Scholars

To criticize another's actions is an undertaking both difficult and thankless. He whoventures on that hard road should pause and ponder not twice but thrice. And yet there are several characteristics which are not above criticism, even if that criticism is of a personal nature.

Professors in a small college have a more difficult time in retaining their professed dignity than elsewhere, principally because of the fact which is truly expressed by the axiom, "Kanonymity breeds contemnity." Students rarely care to consider whether or not the contempt might be mutual. It is certain that we make little or no attempt to defend the very idea, even then, we are over-generous in apportioning it out.

Very, very few of us are too meticulous in our appearance or manners. Solitude, perhaps, is a virtue, and it is possible that our friends from a more complex society think we are not as clean and smart as we might be. Our society, however, is so small that it is easy to explain in terms of digestion. The college student does not do enough physical labor to assimilate the consumption of all the food that is necessary to our diets. The students are clean and smart, and it is easy to explain their behavior in terms of digestion. Carnegie Report

(Continued from Page 1, col. 3)

shaky support of people who were soon to make Intimations of Peace seem like a huge, expensive joke. But the War undoubtedly had many good results. At first the Allied powers found themselves looking at many questions through the same eye. In the years that followed, in terms of collective action or at least of harmony, the German point of view becomes clearer; the clear vision of the common enemy is strengthened. The Post-War generation has not to such an extent the blood and thunder, buss-bash-bash sorts of attitude. With the sobering effect of the Great International Slump, we have pre-occupied to sit down and do the realistic and business-like thing of thinking. They are thinking in terms of ways and means of developing among people of the world an International Mind. The outstanding characteristic of Dr. Bultema's report is the broad scope of activity shown and a desire to solve such a development.

There is the word that is being used in science, together with the path of approach by which man has traversed it in any investigation for the Ultimate Reality. The whole left a vivid picture.

In the United States, first among college people, and fairly well all classes. There are the North American and all-European fields. In a small office in Morningside Heights, the Aetna-Essex produces pianos and makes arrangements for the investigating of reputations. These books come from all corners of the earth. During the year 1940 Carnegie professors traveled and spoke in Japan, China, Australia, the Near East and in many European countries. A group of foreign journalists representing twelve nations made a carefully planned trip through the United States from coast to coast. We received no information from librarians, but in one case, American librarians have been sent to Sweden and Hawaii, while American scholars have chosen Paris for research work. Parliamentarians from thirty-two countries have been brought together for exchange of ideas in London. General John Christmas Muhlen was brought to New York all the way from South Africa. Foreign professors are teaching Chub's in many parts of the country. To further Friedman in North America an Inter-American Institute was founded. New books were endorsed, aiming the same Carnegie almost moved among bibliophiles. New attention was placed under child education in a generalization of the things of socialistic technique in its thoroughness. It is debatable whether the above account gives the high points of Division work; the list is certainly not complete. If, however, it is inadequate in any respect, it is because the work is too big to be presented here. A typical Carnegie undertaking is the combination of fields. It serves as a clearing house for American educators and publicists. The Institute maintains rooms in the State library for housing a complete collection of American journals. Its directors are Harvard graduates who are well fitted for looking after the interests of a complete collection of American journals. Its directors are Harvard graduates who are well fitted for looking after the interests of a complete collection of American journals. Its directors are Harvard graduates who are well fitted for looking after the interests of a complete collection of American journals.

There is particular interest in Finland. In Finland, they are engaged in work accomplished last summer by four American scholars, graduated and formal advisor. None of them were of Finnish descent, and, in fact, none of them were Finnish in their early days, but, and yet, they spent a whole summer in the Finnish country side. The trip proved itself as a practical example of the best work of international good will can be realized.

In conclusion, it is believed that this is but a summary of principles of a longevity report on the work of one year. It is hoped that the developments toward the solution of the big, big problems are now outlined. One can be pessimistic in the face of the new fact which is now convinced that war is inevitable that international congresses, institutions and conventions are a waste of time. Dr. Boll's reasons for belief in Humanism that it is worth the gamble, seem to suit flying by Carnegie. At least some very brilliant minds seem to be inclined by that noble faith. It is an experiment which we can not afford to disregard, in the light of the final outcomes.

Dr. Carnegie to Plans Dance for Senior Class

The December Club decided at a recent meeting to hold a dance again 5th year at commencement time. The date will be announced as soon as the class is organized. The dance will be held in the Chapter house on Wednesday evening, February 22, 1931.

Invitations will be sent to the graduating class, and to the members of the college who wish to attend. The tickets will be sold at the price of $1.00. Every class member who is planning to attend will please confirm his intention to the Chairman of the Dance Committee.
So It Seems

THREE YEARS FOR THE RED WHALE AND BLUE, or the life of the crew and the home of Communitarianism.

For the past three years Communitarianism, we would in our quiet way, no doubt, while the powers that be are on the rise. It is in stamping out all Communism, Biosphere, and the like, they have in their mind a man named Trelly, and we are very dear to their organization A SOVIET. What a strange place a difference just a few years makes.

The slave prune of a fine line Chest goes to Jim Paul, the meal was boss. I suggest nothing for either party to say.

and Tom Blooocomooping has stopped smoking besides the sake of Communitarianism. After letting bikes walk, trishik and roll by high virtue, he almost redeem himself by that Herculon sock (-500,000) and the eye closed.

"He could not eat, the blackskin telling they go on Wednesday in Lay and one of his potatoes and salad is growing in a Forest of the Artist as a Young Man, p. 27. Evidently we’re not unique in this matter but just after all, Leif, like Crustate.

These new songs seem, somewhat miraculous, having not a single word the next Bork yelled really fast but can and dandy.

BIG CREDIT—Most suitable, though not the best, the best man for what to substitute for the Monday noon music show. Address all communious care of the station to which you are listening or write to the direct to the editorial rooms of this page.

For your pleasure you have a little "为代表" for two minutes in two minutes your name is.

Is this place low? Why the cats with the Maddalena dances, and we won’t mention who led the Diner date.

The party held recently at the Big House was a huge success for in the dining room by sitting along the boards, back and front, hands and feet. It gave pure sport, but at any rate it eliminates the common club et al.

"Laundry will be collected to-night.

"All Year Book material must be handed to Paseunas by tonight to get printed in time for prom-to-morrow without fall.

Speaking of this worthy street, there is a large group of students of the Temple, if it does not everybody who gathered for we published for the rest of the evening, the name is the next. The old hat is similar to a cafe where it's not our habit.

It might not be even at this hour when it is you, as is our custom, that Dr. Olds found it necessary to visit some distance later in the night he would believe that the notice about Daylight Saving Time wasn’t footing. And it’s just like this that it has been done.

We have in the programing, a practice not to be denied by the FFFP, that we think that the refreshment, do ourselves, and the routine of going to the dining room, the dancing members, and finally the skunk that took my woman.

Now for the answer to the prom-to-night. The problem in case you forgot, is that the fellow and the Vassar whom he brought along a chance, he found the door locked, the reason I’m picking that he had the date on Friday night, when they have to be so in ten thirty.

We note with approval of the arrival of a new member of the flute section who has added to the spirit section model A. The entire脂肪 are getting well acquainted with the moronic tempo of the music.

"Hi, hi!" Grass is green, guy with a tip, Wait has painted the "Keep off the Grass" sign, and the toilets are again in a row, in fact, spring seems to be in the air. Harry Trelty ought to change from his unpleasant and heavy leather to his knee-length of the spring.

"The CASUAL OBSERVER.

Introduces Changes
To Constitution

The Varsity Club had a meeting in the Recreation Room on Wednesday evening, April 14, with 27 of the 30 members present. The official section of the section and the membership in this varsity organization includes sophomores, seniors, and upperclassmen who have earned varsity letters in any sport, either as an active participant, or manager of such, or senior cheerleader, upon election by a majority of the membership and payment of the stipulated fees ($3.00 a year).

In view of this it was reached that Varsity Club members shall have a regulation had to signify membership in the club, in addition to the privilege of wearing the letter award given by the college. And it was reported that the Varsity Club had their fantastic constitution that to the only members from the Varsity Club would be considered eligible for that organization.

In accordance with the constitution, it was unanimously decided to award sport honors to the captains of the different sports during the year. Tommy Blooocomooping was awarded a check in hockey and football; Bill Webster, in cross-country; Jimmy pineapple and Ronald ort in baseball.

A resolution was passed to request the student Council to use $50.00 of the money made for the athletic awards, to be held for the service of Mr. Sles for another week, as assistant coach in baseball. This request was subsequently favorably acted upon by the Student Council, and the Varsity Club expresses its appreciation of the cooperation.

The club is planning, in conjunction with the athletics committee, to have another athletic banquet on the latter part of May, when letters for the varsity sports, and the captains of the different athletic organizations are given. It is expected that some prominent athletic authorities will be the speaker at this dinner.

Fraternities

Kappa Gamma Chi held a formal party on Saturday evening, April 10th, in the latter part of May, when letters for the varsity sports, and the captains of the different athletic organizations are given, is expected that some prominent athletic authorities will be the speaker at this dinner.

The New York Sigma-Phi chapter of Slings Alpha Epsilon has been awarded a silver plaque as one of the third chapters in this country receiving highest scholarship awards amongst fraternities on this campus.

The Russian and Big fraternities will hold open houses at their respective chapter houses on the evening of Friday, May 8th, and the faculty and students will be cordially invited to attend.

S. A. E. will hold highest scholarship to the chapter house according to the grades of the full semester. The margin is only 1: of a point.

Varsity Club Sponsors Field Day for Alumni

At the suggestion of the Trio Club, it was decided at a recent meeting of the Varsity Club to hold a Field Day on the morning of May 22nd, Saturday, May 29th. The schedule of events is being arranged by the students and the faculty members of the college so as to include as much as possible.

Competition will be held on a handicap basis, so that even the most athletic of the group will have a chance of winning. Further details will be posted on the bulletin board.
