CELEBRATE TWELFTH BOAR'S
HEAD DINNER HEAD TONIGHT

Dr. Bell to Preside As College Gatherings Together
For Annual Festival in Preston Hall

Younger Faculty and Freshmen Among Speakers;
Mr. Lowther, Judges

As has been the traditional procedure at St. Stephen's for some years, the annual Boar's Head Dinner is the highlight of the Hopkins Common. All members of the college were present, faculty and students, new and old, as Warden Bell once again presided over one of the merriest festival gatherings enjoyed by the students through out the entire academic year. This year's celebration marks the 12th year which this custom has been observed at St. Stephen's.

The dinner is scheduled to start at 7:15 this evening and will continue until about 10 p.m. The committee has gathered the pieces of decoration which will be the basis of the meal which Mr. and Mrs. Lewis, the younger member of the Lewis family, have reversed over bear's head into the hall model, ceremonies in both Latin and English. Dr. Bell is presiding while Dr. Crosby officiates as Master of Ceremonies. It is hoped that Dr. Nicholas Murray Butler, President of the University will be present. This year's Boar's Head Marshall is Mr. Treffy, and the Boar's Head Guards of Honor are Messrs. McKinnon, Price, Pirtle, and Fortuna. The correct number of boys was guaranteed by Mr. Lowther, later, while the meal is in progress, they are responsible for furnishing the guests with the custom of the day. The silken boughs of the dinner are being presented at the same time.

According to the customs of the program of the past few years, the formal dinner followed by speeches was attended by both the faculty and students. Mr. Gray, president of the college, and Mr. Robert Charles, dean of students, were called upon to contribute a speech on the future of St. Stephen's. Mr. Stanley Leeke, to be considered as representative of the younger members of the student body. The Warden, Dr. Bell, delivered his regular Boar's Head Dinner speech in concluding the evening's festival period.

At the close of the Boar's Head Dinner, everyone's attention devoted to the basketball game of the first St. Stephen's boy's game with the quintet from Clarkson Tech, Potsdam, to be played in the Memorial Gymnasium.

CROSS COUNTRY NUMERALS:
Lloyd Bell (Captain), Kenneth Kates, Walter Chad, George Morris, John Rodd, Charles Currey, Vernon Morgan, Edward Kremer.

SELECTED NUMERALS:
Edward Morgan, Robert Kendall, Jr., William Schmidt.

Regular Beautiful Christmas Carol Service Precedes To-night's Feast

The beautiful Carol Service which was held in the chancel of the chapel this evening will long be remembered by all who attended. Imposing the impressive service was eight well-known ancient carols from many countries.

The service began at 6:50 with Dr. Cresson as Officiant. Mr. Paul, with Mr. Welker, were soloists. Mr. Burgevin, the theremin. The first verse was read by Dr. Fran- ken, the second by Father Hurd. The program is reprinted here for those interested in a perusal of all of the best carols.

PRIPLEUX (English: "Pray for Us")

Hymn 82: "A Great and Mighty King."

CHRISTMAS GREETINGS AND A HAPPY NEW YEAR

The Boar’s Head Dinner with its reversion of easter herald, toastified or insubordinate students brings to our forethought the all necessary of that good cheer which is with us again. It is a dangerous time, even for the seasons, since it is easy to be sentimental.

The college’s most appreciated gift, even if a delayed one, which we will obtain when we return exhausted from the many good things Christmas tree brings us, will be the news of Columbia’s decision. What we will give the college is a subject for debate either in the serious or in the sarcastic. Most likely our greatest gift will be our absence. The college has been consistently endowing us with presents ever since she took us into her fold, but the student who is a cynic dare not discuss these elements which make up the “laws of life.”

In this season of “peace on earth good will to men” the world gives us a terrifying Germany, an economically depressed America, a quiescent Europe, a war-torn Orient, and last, but, dear brothers, not least, the Manchurian problem with its threat of war.

In a round-about manner the world also gives us on campus intramural sports, non-contentious and subdigital over which we are more worth all the interest taken in them by the older men were.

Viewing the present season from all angles the only recipe seems for us to wish each other a “Merry Christmas and a Happy New Year,” and hoping for the best, duck for the nearest shell hole.

MORE SECOND HAND TERM PAPERS

News filters through from Vassar that the campus newspaper there exposed a mass production of cheating in one of the courses required for freshmen. The cheating consisted of buying term papers written in previous years, copying essays with slight alterations, and collecting lots from various papers into an exceedingly stylish whole.

There are no doubt, indeed, that there must be something wrong with that course in which the students is to make such shabbily wicked move.

Ye Olde Boar’s Head”

Man, Know Thyself

The Mind and Education

A long time ago a young philosopher set forth on a philosophy of life that, if followed faithfully, promises a beautiful and happy existence. His teaching was that of a complete negation of life. All action, however, as the beginning for a tribe of non-humanists, who were, merit merely the contempt of the new generation. Now some of these men drifted away from the tribe, chiefly those who will examine their bodies and minds. They were long bound to the relationship between mind and body, and they came to the conclusion that mind could benefit body, which was, in effect, the same as its influence, then the body part, by the laws of inheritance.

Today we have minds working for the betterment of body; now and then a present body, and most in large for future bodies.

These minds are more active than those of the young philosophers’ time, but the time is coming when all the physical, and the current body itself will be reflected. A new society will carry on to the long-sought goals which, now, are in the grasp of the young philosophers.

The present young philosopher was right, however, and something does happen to upset the most secure course of events, then mind will not be weaker on the body. A perfect thing is not always an attainable but will continue to grow and change. Even the most perfect things being equal, the perfect thing will develop a body which can carry on to complete physical disintegration, which is a change of a different color.

That we are now and so responsible for whatever happens in this world, the only hope we have that every single instance of the interference of fate in the lives of people ever so does not change.

Perhaps this is just another way of saying that education is a good thing.

Bookshelf

Among the newer books which may be of interest to the average person is “Ellen Terry and Bertram Hill” by H. E. Chisholm, which is a collection of letters which covered over a quarter of a century of the most famous English figures. These two people sold their letters; but their letters were intimate affectionate, and really expressive of themselves. Their correspondence shows an interesting light on the inner history of the London stage at the end of the last century. H. E. Townsend in the New York Times said of this unique volume, “Apart from the delightful grace and laughter of the letter-writers, there is abundant charm and modesty and social activity.”

A set of books entitled “Inter- Neational Index of Literature” has also been received by the Hoffman Library recently. This is an index to the less popularly demanded magazines which appear in the Readers Guide. It includes such publications including theological, educational, and foreign editions from the year 1890 to date.

Freshmen Make Foolery At Last

Penny Contributions Made To ‘Mummers’ Skin

After several postgraduates fell, the Freshman Stunt Night was finally held on last Friday night. The students, miming a trinity of religion and politics, performed numerous Undergraduates who have been known to peddle the decorations or underprivileged, too during the Freshman Night. Separate panels of Christmas Hollidays. The usual close quarters with the customary “encourage my” happening. A separate group in attendance. Mr. Richard Greenberg, a staff of miller spokesman for the earnest student body, brought forth many dimes for the Freshmen and everyone did his best and, of course, for future sales.

The opening stunt featured Poor Homer of Greece that was M. Stephen’s own Homer, who is a scholar in this country of his great suffering from "aristocratic optimism." The entertainment offered by "Small Surgeon," Dr. Thomas With- lings articles, Prof. Googy’s lips, the story of "Plato’s“ Kirkland as Prof. at the college where the old and new had been next presented. Four com- panions of a good (Robert Clark) reserving for his book of a lively college the book of the Freshmen along the ride-line.

A rather new sort of stunt for this time was presented by Peter Ousoff and Raymond Eauw who had a dialogue jokes of French for the French. The acquisition of this was a tremendous good (Robert Clark) reserving for his book of a lively college the book of the Freshmen along the ride-line.

Among Those Notably Bored

The college received a generous gift last week of $30,000 for the furtherance of its preservation. This amount comes anonymously and will be applied towards next year's college deficit.

A Christmas Party was held at Kappa Gamma Chi house on Monday evening, December 14th, when some 78 guests were entertained, including members of the faculty. One of the features of the party was moving pictures taken of the arrival of the guests, and members of the faculty were asked to appear in the movie. A series of seven oils were given which consisted of mapping campaigns with real-life local references. This was followed by refreshments with Mrs. Bell, Mrs. Edwards, Mrs. Ogden, and Mrs. Maury acting as hostesses. The party was concluded with the distribution of gifts by Sota Clubs.

As the result of the action of some over anxious hockey players, the water supply pipes for the hockey rink on the college campus had to be repaired, for the pipes burst on a very cold night Thursday, December 4th. The pipe was broken, however, were anything but winter days, nothing being really frozen for a week. Last Saturday, too, seemed just like spring sky, although there were no more leaves on the trees than on the preceding Sunday. Even two or three strangely-looking gracious and a half dozen English sparrows nearly ruined themselves in attempting to stick like seagulls on the roofs of the stone buildings.

The season for both the soccer and cross-country teams met during the past month and elected their captains for their respective squads for the season of 1927. William Good, this year's soccer captain, is succeeded by Wilfred G. White, Jr. The leader of next season's cross-country team is Ward Courtenay, who steps into Captain Lloyd Bell's position of the last season.

As a result of an extensive amount of conversation around campus regarding a possible disbandment of St. Stephen's College, after the Christmas holidays or at the end of this academic year, Dr. Bernard L. Bell, President of the college made a statement which should cancel any doubts as to the continuance of the institution. He states that there is no intention on the part of the University to dissolve the college either at present or in the future. The only question now in the hands of the Trustees is to determine just what improvements can be undertaken here, considering the present conditions of the existing severe depression.

Dr. Nicholas Murray Butler, President of the University, in his address at the Nobel Prize ceremony at the N. R. C. radio network last Saturday advocated, for the establishment of a Department of Peace, the abolition of the War Department and the substitution of it by a Department of National Defense to take over the work of all War and Navy departments. He, also, predicted that the Pact of Paris, re-establishing as a national policy, would be regarded in the future as the supreme act of the age. Nine suggestions for peace were also included in his speech. Some of these other proposals concerned discarding of battalions, development of international code laws, strengthening the authority of the League of Nations, and other valuable ideas.
Jayvees Down Knight’s Club

By Score of 22-14. Lose To Rhinebeck

As did their fellow squaddies, the varsity, the St. Stephen’s Junior Varsity basketball team split their two games played last week. In a preliminary to the Varsity Hartwick contest the St. V. V. was overwhelmed by the second time season to the speed and precision of the Hartwick Punkies by the score of 29-20. In a last quarter of play before the Brooklyn College game last Saturday, the St. Stephen’s team easily downed the Knight’s Club of Foughkeight 25-12.

The Rhinebeck game was a dis-appointment to the followers of the St. Stephen’s team who came in the hope of seeing the score of the previous meeting between these aggregations reversed. The score was even until late in the game when the schoofboys, led in the attack by Martin, scored several times to give them the game.

The Knight’s Club met a dis-appointment to those who had Rhinebeck. The college team were playing something like the real Rhinebeck ball than they had shown in their previous games and there was good organization in their play. Passing and dribbling were more accurate and very nicely executed. The Knights were out-paced in every department of the game and had difficulty in scoring at all. The playing of Kates and Kline were the outstanding features for St. Stephen’s in these games.

Games Split

(Continued from page one.)

wong way and put on a flashing rally that quickly put them both in the running. Brooklyn, how- ever, still had scoring power which they put into execution to take the game. Rose of Brooklyn took the individual honors of the fray. Scoring eleven points, he showed his scoring attack that was not to be denied and his work at guard drove continent of the Bronx. Good and Symms again led the scoring for the Saints. Their nine points apiece were valuable contributors to the home college’s score and their speed at bat was not outdone by Brooklyn.
