From The Dean

It is a source of real gratifica-
tion to the college community that the University has been able to publish with this issue. An able and constructive student paper like the "In the N. A. B." can measurably improve the welfare of the college in many ways. As a source for the expression of student viewpoints, the "In the N. A. B." is to be congratulated upon their initiative and resourcefulness in meeting the challenge of a new opportunity.

Chapel Attendance, Rule Is Modified

A natural change in the policy of student attendance at chapel serv-
ses at St. Stephen’s College was announced last week by Dean Donald G. Tewksbury and Chap-
lain William O. S. Matthews. This change had been under considera-
tion for some time, and the new arrangement has been worked out in consultation with the faculty.

The purpose of the change is to make attendance at chapel services optional for all students. Under the new arrangement, students will be excused from chapel attendance on the following occasions:

- Sundays between 9:30 and 11:00 a.m.
- Sundays between 11:30 a.m. and 12:30 p.m.
- Saturdays between 9:30 and 11:00 a.m.
- Wednesdays between 9:30 and 11:00 a.m.
- Fridays between 9:30 and 11:00 a.m.
- Mondays between 9:30 and 11:00 a.m.
- Thursdays between 9:30 and 11:00 a.m.

The change in chapel attendance policy was announced by Dean Tewksbury in his weekly address to the student body.

Adapted Programs Effected By Dean and Trustees

In order to provide a program of religious observances which will be more meaningful to the student body, the chapel services have been expanded and modified to meet the needs of the student body.

A new service of the student body, called the "In the N. A. B." has been created to encourage and promote spiritual growth among the students.

The "In the N. A. B." meets on the first and third Sundays of each month at 10:00 a.m., and is open to all members of the student body.

The program of activities includes talks, discussions, and musical performances by students and faculty members.

Governor of Colorado Calls Americans Indifferent

The National Recovery Act of the Roosevelt Administration is being carried out by America’s leaders in an effort to achieve a higher standard of living for all American citizens. This act aims to bring about a fair distribution of wealth and to prevent the concentration of wealth in the hands of a few.

The act also aims to improve the working conditions of labor, to provide a minimum wage for all workers, and to reduce the hours of labor to 40 hours per week.

The act is supported by the majority of Americans, and it has been signed into law by the President of the United States.

The National Recovery Act is a significant step forward in the development of a fair and just society for all Americans.

The new act is a clear indication of the commitment of the United States government to the principles of democracy and social justice.

The new act will benefit all Americans, and it is a clear indication of the government’s commitment to the principles of democracy and social justice.

Requirements In Classics Changed
(Continued from Page One)

Because of the informal relations between the two professors teaching the ancient literature courses, Mr. Gannon and Dr. Smith, the student body is not accustomed to the formalities generally expected in the student body.

The change of the rule will be to the advantage of the entire college, the main purpose being to make the student body more like the student body of the other departments of the college.
