Faculty Refuses to Ratify New Constitution of Undergraduates

Stipulates Certain Changes And Places Present Student Government In Embarrassing Position.

The faculty has refused to ratify the constitution adopted by the undergraduates last June until certain definite changes have been made. The original resolutions, passed at their first meeting and submitted to the student council, are as follows:

1. Representation on the student council needs to be changed, either by the abolishing of fraternity representation altogether, or, if that proves inadvisable, by requiring that each group, including that of the non-fraternity men, elect its own representatives. The reason for this is to avoid political manipulation by which two fraternities might combine to elect as representative of the third fraternity, an inferior man, or the three fraternities combine to elect an incapable man to represent the non-fraternity men.

2. Provision should definitely be made that no law or decision of Convocation or the Student Council affecting the person or property of any student may become binding unless approved by the Dean.

3. Corporal punishment should be forbidden by the constitution, complying to the faculty regulation to that effect.

4. Provision should be made that the accounts of the treasurer of Convocation shall be audited once a semester by a committee of the faculty. This is necessary, since the Convocation uses the college name and could incur debts for which the college might be held responsible in law and also since the college collects the campus taxes for the convocation and thus guarantees its proper use.

5. Provision should be made that no man may serve on the Student Council or be otherwise an officer of Convocation who has not completed on the campus at least one semester's work to the satisfaction of the faculty.

6. Laws and rules regulating student conduct must receive written consent of both the President and the Dean.

After consulting among themselves the Student Council drafted the following reply to the faculty:

1. In regard to the suggested changes in the constitution of the undergraduates of St. Stephen's College made by the President and the Dean, may the Student Council inform the faculty that in the spring of 1920 and 1922 under Presidents of Convocation, Pfaffko and Turney-High, the question of representation

College Buys More Land

At the meeting of the Board of Trustees last Tuesday it was decided to buy from Mr. Kirtley Lewis of Annandale, eight acres to the east and southeast of the cemetery hill. This land has for generations been a part of the Lewis farm, and has been used for pasture. Mr. Lewis contemplated this year planting a new apple orchard on it, and indeed had already ordered the trees, when he heard that the college needed and desired it, and was persuaded, largely because of loyalty to his former Alma Mater, to sell.

The land was purchased for two purposes. In the first place there is on the property a small brook, fed by a number of springs. Expert investigation discovered that this water was potable and, indeed, remarkably free from pollution. There are no buildings or other sources of pollution anywhere in the watershed of which this land is the base. Mr. Charles A. Moran, of the Board of Trustees, has conducted the investigation of water supply possibilities. A cement reservoir will be constructed next summer. The brook and springs now running, without any well-digging, will yield about 7500 gallons a day, and it is hoped that this will be much increased by judicious development.

In the second place, the Trustees desired this land that it might be used for sites for faculty houses. The main campus must of necessity be used for instructional purposes and for dormitories for men. It is only a matter of a very few years when a number of houses for professors must be erected. Until this land was purchased there were no suitable places to build these dwellings.

Because of the near approach of cold weather, nothing will be done toward developing this property in any way, until the spring.

Varsity Defeats Rhode Island State, 7-6

Eastman Cancels Game

The St. Stephen's-Eastman game to have been played Saturday was cancelled during the week by the Eastman authorities. It seems that efforts of the Poughkeepsie institution to build up a suitable eleven had failed, and accordingly all remaining games have been forfeited by them. Upon receipt of this news the varsity was given a three days rest but told to report Monday, prepared to put in some hard licks for the N. Y. Aggie game.

Corporation Elects Officers

The Board of Trustees has elected its officers for the coming year, and the next twelve months the following people will supervise the management of the college:

Chairman:—The Rt. Rev. Dr. Manning, Bishop of New York.

Vice-Chairman:—The Rev. Dr. Bell, President of the College.

Secretary:—Mr. William Harison.

Treasurer:—Mr. A. Hatfield, Jr.

Education Committee:—The Rev. Dr. Fosbroke; the Rev. Dr. Norris; Mr. John A. Hance; Mr. William Harison; the President.

Administration Committee:—Dr. Lawrence Cole; Mr. Charles A. Moran; Mr. Wm. Harison; Mr. Henry Young; Mr. A. Hatfield, Jr.

Finance Committee:—Mr. Haley Fiske; Mr. W. J. Tully; Mr. Henry Young; Mr. A. Hatfield, Jr.; Mr. C. A. Moran.

Auditing Committee:—Dr. Cole; Mr. Hance.

Simmonds Picks Up Fumble And Runs 65 Yards for Touchdown

The fast Crimson eleven defeated Rhode Island State by a 7-6 score at Kingston, R. I., Saturday, October 14th. The game was bitterly contested, both teams fighting fiercely until the final whistle. The Rhode Island aggregation proved to be the better ground gainers, but the 'Varsity always tightened in the pinches and took the ball away. The home team was apparently well prepared to cope with the open game of the Crimson and broke up many attempted forward passes.

The first half was scoreless, neither goal line being really threatened. Toward the end of the third quarter a Rhode Island back fumbled and Simmonds, the 'Varsity quarterback, dashing in, picked the ball from the ground and ran 65 yards for a touchdown behind well-nigh perfect interference. Several minutes later he succeeded in booting the ball between the goal posts for the extra point.

Thereupon, Rhode Island came back with a punch and marched to the St. Stephen's twenty-five yard line where the 'Varsity took the ball away. Here a Crimson back fumbled and Rhode Island secured the ball again. Then began a terrific struggle between the two teams which terminated with Rhode Island carrying the ball across, requiring nine downs to go twenty-five yards. An attempt was made to secure the extra point by place kick, but Gruver, the 135 pound 'Varsity center, leaped through the line and blocked what would have been a perfect kick.

The game was marked by an excellent brand of football on the part of both teams. The tackling was clean and the interference far above the ordinary. Both White and Johnson punted well, averaging at least fifty yards. The only two fumbles of the game were responsible for both touchdowns.

The game by quarters:

1. Simmons won the toss and chose to receive. Johnson kicked off for R. I. and Deloria received, but was downed on his own twenty-five yard line. An end run by White netted three yards. Deloria attempted a long forward pass to Coffin, but it was knocked down. Then White sent a surprise punt down the field which put the ball on the State College thirty yard line. A plunge through

All subscriptions over-due will be discontinued.

Price of subscription \$2.00 a year, payable in advance.

LET US GROW UP!

Student government at St. Stephen's has just suffered a relapse into the growing-pains of adolescence.

Every immature political organization betrays its youth in many ways, and here are some of the most striking examples of callowness in our present administrative body:

1. Deliberation behind closed doors resulting in action unauthorized by constituent opinion.

2. Involved verbosity about matters which, by the application of a little common sense, might be settled in one brief conference.

3. In place of progressive activity, the substitution of inconsistent, offensive, and impotent fault-finding.

"My brethren, these things ought not so to be." The student body is weary of secrecy, delay, and puerile bickering. If the Student Council wishes to preserve its dignity and authority, it must form a new policy of conduct. We suggest that this policy entail fewer infelicities at meals, and more frankness at meetings of Convocation.

ARE YOU A MISFIT?

The Board of Editors recently announced a freshman essay contest. Several members of the faculty were invited to act in the capacity of judges. All new men were personally notified by the Professor of English and a conspicuous notice was placed on the student bulletin board. The idea was to encourage the new

class to take an interest in "Messenger" work. Two men deigned to compete and neither of these paid any attention to the simple conditions prescribed.

About ten freshmen answered the call for football. Perhaps another two or three have decided to try their hand at dramatics. The large majority have failed to show preference for any activity. A man in college, and especially a man in St. Stephen's, who has no activity is not worth the proverbial "tinker's dam." He is a misfit, usually narrow and bigoted. The very fact that he makes no effort to help his college proves that he has no spirit.

One can readily see that the co-operation of everyone is essential if St. Stephen's is to engage successfully in its several activities. Freshman should give this matter proper thought and adopt a new attitude.

Do we want to retain self-government? Do we really value student control of student affairs? The fact that we do would certainly not be evident to anyone who attended the last meeting of the Convocation of Undergraduates. At this meeting, a committee of the faculty was present to confer with us regarding the new constitution, which made it an important meeting. At the time set for the opening, only a very few students were present. After keeping our faculty visitors waiting for half an hour while a few other students nonchalantly drifted into the room, the meeting was at last opened with not more than half of the members present,—less than a quorum for business. What is the meaning of this alarming lack of interest? The obvious explanation is that we do not care to retain our privileges. We certainly do not deserve to retain them.

Scrubs Bow to Peekskill 6-0

The second team showed a marked improvement in their battle with Peekskill Military Academy on Saturday, October 14th, although defeated by a score of 6-0. Peekskill scored in the early part of the first quarter as a result of a fumble. Thereupon the scrubs stiffened and outplayed the home team for the remainder of the game, as indicated by the fact that three times as many first downs were obtained. Only costly fumbles prevented a score. Parsell, a St. Stephen's guard was temporarily paralyzed as a result of landing on the base of his spine when tackled. He is progressing nicely at present and expects to report for practice this week.

VARSITY QUARTERBACK STRICKEN WITH APPENDICITIS

Harvey Simmonds, the regular varsity quarterback, was removed to his home in Troy on Thursday last, following a mild attack of appendicitis. Reports state that he is improving rapidly and hoping to return to college in the near future. Meanwhile his presence is sorely missed.

Dr. Wilson Explains Rhodes Scholarships

Editor's Note.—At the request of the "Messenger" Board Dr. Wilson, head of the Department of Modern Languages and a Rhodes Scholar himself, has written the following article. It is of special interest in as much as for the first time in many years St. Stephen's will have two candidates for Rhodes Scholarships.

The Rhodes Scholarships were created a little less than twenty years ago by Cecil Rhodes who wished to promote friendly feeling and better understanding between Great Britain, the Dominions, the United States and Germany. He gave a number of scholarships to Canada, Australia, New Zealand and South Africa, two to each of the states of the United States, and twenty to Germany. Each of these scholarships originally amounted to \$1500 a year for three years. To meet the increase in the cost of living this sum has been increased to \$1750.

A candidate to be eligible must be unmarried. He must have passed his nineteenth and not have passed his twenty-fifth birthday. He must have completed at least his sophomore year in college.

The candidates are in the first instance selected by a committee of their own institution. St. Stephen's is entitled to not more than two candidates. This preliminary selection is made in October. The men chosen file application with the State Committee which makes its selection in December.

Both committees make their selection on the basis of the following qualities:

1. Manhood, force of character, and leadership.
2. Literary and scholastic ability and attainments.
3. Physical vigor as shown by interest in outdoor sports, etc.

In connection with the scholastic ability and attainment, it is felt by the St. Stephen's Committee that the candidates should have an average of at least eighty-five per cent.

A graduate of St. Stephen's may expect to receive Junior Standing, which gives one year's standing and carries with it exemption from Responsions, (the Oxford entrance examinations). The candidate is not required to show a knowledge of Greek.

No restriction is placed upon a Rhodes Scholar's choice of studies. He may take the Oxford B. A. in any of the Final Honor Schools—Classics, Mathematics, Physics, Chemistry, Law, Modern History, English Language and Literature, French, German, Spanish, Russian, Zoology, Botany, Geology, Astronomy, Engineering, Theology, Philosophy, Politics and Economics, Music, and Oriental subjects. Any one of these subjects may be exclusively studied.

The student for the B. A. enjoys great liberty in his work. There is no compulsory attendance of classes

and no class mark. The final "class" or grade of the student is based entirely on the ten or twelve final three hour written examination and the "viva," (oral examination) which are taken at the end of the second or third year. Usually the preparation of the B. A. requires three years.

If qualified by previous training, the candidate may be admitted to study for advanced degrees such as the B. Sc., B. Litt., B. C. L., or Ph.D. The preparation for these degrees takes either two or three years. A student who has completed his Oxford B. A. can do the B. Litt. or the B. C. L. in one year.

According to schedule New York will select a Scholar this year to enter Oxford in 1923. In 1923 there will be no election. In 1924 and 1925 Scholars will be selected for the years 1925 and 1926. A student of St. Stephen's living outside New York State can present himself in New York or in his own state.

Alumni Trustees Assured in Near Future

At the quarterly meeting of the Board of Trustees of the College last Tuesday, a memorial was received from the Alumni Association asking that, if possible, an arrangement might be made whereby the number of the Board of Trustees might be enlarged, and the alumni given the privilege of electing some of them directly. A committee of which the Reverend Albert Longley, '96, was chairman, presented the memorial.

The proposal met with the approval of the corporation, and a resolution was passed authorizing Mr. William Harrison, secretary of the Board and attorney, to draw up the agreement required by the charter. By this document the College is authorized to make agreements with organizations either of the Episcopal Church or of the alumni, whereby trustees may be chosen by such bodies for definite terms of office. The college is required to reserve the right to cancel such agreements if at any time it so desires.

Negotiations between Mr. Harrison and the alumni committee have already begun. It is expected that final ratification will be made by the Corporation at its mid-winter meeting, and by the alumni association in June, and that at the latter date the alumni will elect three trustees, one for one year, one for two years, and one for three years. Thereafter as one man's term will expire each year his successor will be elected for a three year term.

FRESHMAN SERENADE PRESIDENT BELL

Learning that Wednesday, October 11th, was President Bell's birthday, the Freshman celebrated the event by marching up to his house in a body and cheering him until he appeared. Packard, in behalf of the class, congratulated him upon his anniversary. The President thereupon spoke a few words in reply and after more cheering the serenaders dispersed.

ULTY REFUSES TO RATIFY NEW CONSTITUTION OF UNDERGRADUATES

(Continued from page 1)

on the Student Council was put to a vote and in each instance the present method of representation was retained. Evidently this method is the will of the student body.

Sections 2, 3 and 6 of the above-mentioned changes are referred to in section 2 of this letter. Sections 4 and 5 will, the council believes, be viewed with favor by the Convocation.

2. Student Council respectfully suggests that the faculty resolutions concerning "corporal punishment," "punishment of any kind," and "laws and rules" be repealed. This suggestion is arrived at from the feeling that by such resolution the Faculty holds the reins of government in student affairs; the Student Council is thereby rendered irresponsible, and a government by the students does not exist. The Student Council, however, is anxious to see corporal punishment abolished from the college. The council feels that a fairer distribution of power in the student government would result from allowing the Student Council free rein in matters of government, their decisions to be subject always to the veto of one member of the faculty who would be elected by that body, the power of veto to extend over forty-eight hours. The faculty advisor would have access of the minutes of the Student Council and would audit the books of the treasurer once a semester. Such representation of the faculty in the student government seems to the Student Council to afford a proper and sufficient check on any action of student government.

Upon receipt of the above the following committee was selected by the faculty to confer with Convocation: Dr. Edwards, Dr. Muller, Dr. Davidson. At a meeting held in Preston Hall on October 11th, Dr. Edwards explained the attitude of the faculty and suggested that a consensus of student opinion be taken with regard to the original resolutions. A large majority of students favored the first, third, fourth and fifth resolutions, but showed decided opposition to the second and sixth proposition. The members of the faculty committee appeared to sympathize with this demand and expressed the opinion that the faculty would rescind these two resolutions. The Student Council was empowered by vote of Convocation to meet with the faculty committee and draft the necessary amendments, and to present the revised constitution to Convocation at a later meeting.

Meanwhile the student government is not functioning and affairs of Convocation are in a deplorable state. There is considerable doubt as to the legality of the election of last June. It is to be hoped that a speedy and sensible remedy be found in the near future.

When you see a merchant's Ad in The Messenger, it means that he is a man of honest goods and measure. Patronize him and by so doing help yourself and the Messenger.

VARSITY DEFEATS RHODE ISLAND STATE, 7-6

(Continued from page 1)

center netted two yards and an additional four yards was gained by an off-tackle run. Another off-tackle play resulted in a three yard loss, whereupon Johnson punted fifty-five yards back up the field. Noble dashed through tackle for two yards, Deloria threw a short pass to White who was downed on the scrimmage line. White again punted on the third down. Rhode Island succeeded this time in making a first down, but then was compelled to punt. For the remainder of the quarter each line held firmly, Rhode Island State making but one first down and St. Stephen's none.

2. The beginning of the second quarter found the ball in St. Stephen's possession on the forty-five yard line, but Rhode Island held and White punted. State College then succeeded by means of a series of short end runs and off-tackle plays in carrying the ball to the St. Stephen's thirty yard line. Here, failing to gain further, Johnson dropped back and attempted a drop kick which just fell short. The ball was brought out to the twenty yard line where Deloria, the 'Varsity fullback, attempted four long passes in rapid succession. The first three were knocked down, but the fourth, a beautiful throw of forty yards, caught by Coffin, put the ball well inside the Rhode Island territory. However, the half ended at this point and found both teams scoreless.

3. Rhode Island had the choice and elected to receive. The kick was short and the home team had the ball practically in mid-field. An attempted forward pass was intercepted by White who punted at once, putting the ball on the R. I. fifteen yard line. Johnson returned the punt, Deloria threw two forward passes which were knocked down. An attempted third forward pass was intercepted by Samont. Rhode Island then made a first down by a wide end run. Two off-tackle plays netted five yards. Here a R. I. back fumbled and Simmonds, running in scooped up the ball. Several 'Varsity players fell in beside him and boxed the three Rhode Island backs who stood between him and a touchdown. Simmonds also booted a place kick for the extra point. State College received the kick off, but was compelled to punt. The remainder of the quarter saw an inter-change of punts between White and Johnson, both kicking well.

Score, S. S. C. 7; R. I. S. 0.

4. Rhode Island started this quarter with a vengeance and by smashing off-tackle gained three successive first downs. Then the 'Varsity held and White punted well out of danger. At this juncture Noble was stunned and Kilby was put in, the only 'Varsity substitution of the game. R. I. gained a first down by several short end runs, but then punted. Here a St. Stephen's back fumbled and State College recovered on the 'Varsity twenty-five yard line. Then began one of the keenest struggles of the afternoon. An off-tackle smash net-

ted five yards. Another was stopped at the line. A plunge through guard netted three yards, and a short end run four more yards, giving a first down. Two successive line plunges were stopped, but an off-tackle play and a short end run gave the required distance for another first down. A plunge through guard by Johnson barely put the ball across the line. Rhode Island lined up for the play for extra point. At the snap of the ball four 'Varsity players waded through the line and Gruver, leaping high into the air, blocked what should have been a perfect kick. St. Stephen's received but the game ended almost directly. Final score, S. S. C. 7; R. I. S. 6.

Designated Offerings Again Possible

In the first issue of the Messenger for this year it was intimated, from a telegraphic hint, that much had been done for the Church Colleges at the General Convention of the Episcopal Church at Portland. We now have full information. The President's office has received details from the National Council of the Church, through the Rev. Dr. Gardner of the Department of Religious Education.

By the action of the Portland Convention each of the five colleges, Kenyon, Trinity, Hobart, Sewanee

and St. Stephen's, is treated exactly alike and, for the first time, each is acknowledged as having a just demand for the official support of the Church and of Church people.

An outright grant is made to us for the next triennium, of \$10,000 a year, the interest on \$200,000. The \$10,000 is to be used for current support. This money we do not have to raise, nor does it come especially from designated offerings, but is paid directly, in exactly the same way as the salary of a missionary bishop. Inasmuch as our deficit is about \$28,000 a year, this sum, coming in regularly will be exceedingly welcome.

In addition, St. Stephen's will have the privilege of \$15,000 a year of designated offerings, if it can get them. In other words, if an individual, or a parish, wishes to give us money, up to this amount, next year, it can do so and have the amount counted on its quota for the Nationwide Campaign. This applies to new gifts only. Pledges on the Endowment Fund cannot be so counted.

Finally, if there should arise donors desirous of giving money for buildings, this too may be counted on the Nation-wide Campaign up to the following amounts: toward a new dormitory unit, \$37,500; toward the new laboratory building, \$37,500; toward the new recitation hall \$37,500.

In return for these privileges the college is required, from January 1, 1923 to December 31, 1925, to make no outside appeals to Church people.

It is expected that the alumni who are clergymen or officers of parishes, will make every effort to get designated offerings given in their parishes for our use, since every cent so given can now be counted on the Nation-wide Campaign, beginning January 1, 1923.

College Preachers

We seem unusually fortunate in the preachers for the college chapel, this year, if one is to consider the list for the next five weeks as indicative of the men who will be here throughout the year. St. Stephen's is generally favored with sermons from some of the most noted priests in the country, and this year seems to be no exception. The men who will be here during the next few weeks are as follows:

Oct. 29—Rev. John McGann, of Christ Church, Springfield, Mass.

Nov. 5—Rev. Dr. Fleming James, of Berkeley Divinity School.

Nov. 12—Rev. President Bell.

Nov. 19—Rev. Dr. Caleb Stetson, Rector of Trinity Church, New York City.

Nov. 26—Dr. Wm. C. Sturges, of the Board of Missions.

Plans for Glee Club Progressing

There is no longer any doubt but that the College Glee Club, which languished last year, is to be resurrected and re-vitalized under the energetic leadership of President Bell. The Choir, from which the members of the Glee Club are to be chosen, is already working on a difficult selection from Tanhauser, and the quality of the rendition gives great promise of future success for the club.

On his recent trip to Boston, Pres-

ident Bell had the good fortune to meet Dr. Davidson, the noted Choir Master and Glee Club leader of Harvard, who exhibited a deep interest in the attempt to establish a good Glee Club here. This interest was genuine, for, before parting from President Bell, he promised to send him copies of all the numbers that his Harvard chorus sings. They are difficult, he says, but not too difficult for a club which can render the Pilgrims Chorus from Tanhauser and this, the Choir is at present attempting.

Freshmen Caps Arrive

The emancipated Sophomores chuckled gleefully last week when Louis Myers announced the arrival of the new millinery for the members of the Freshman Class. The Freshmen, poor things, not knowing what was expected of them, did likewise, until they saw the caps * * ! They rushed eagerly to procure them, but when the lid was removed from the box which contained them, the sight which met their gaze nearly made them blind. A mass of vivid pea-green was fighting with equally vivid and brilliant circles of scarlet—a wonder to behold.

The fashion this season varies little from last season. The circular shape continues to be in vogue. The button is slightly larger, and certainly more conspicuous. The creation "in toto," might be called a little more startling. But the Freshmen, with their innocent faces do look so sweet in them.

Trustee Lectures

On Monday evening, October 23rd, the second general lecture of the year was held in the Gymnasium. Mr. Abraham Hatfield, a member of the Board of Trustees, and newly appointed treasurer of the college, gave an interesting talk on Chartres and Mont St. Michel. The lecture was illustrated by a series of colored slides, the product of some of Mr. Hatfield's leisure hours. He is a traveler and curio-collector of considerable note, and apparently nothing of interest ever escapes his attention. The lecture was of value, apart from its authoritative merit, because it clarified a vagueness lingering in the minds of many of us. Of course we had all heard before of Chartres and Mont St. Michel, but we confess that we were in doubt as to whether the latter were a battlefield of the late war, or the former a fluid once found in green bottles.

Sidelights On The R. I. Game

The Rev. W. H. B. Allen of the class of 1884 was one of the most enthusiastic rooters at the game. He warmly congratulated the team upon their victory.

Three of the cars on the trip over toured the entire state of Rhode Island trying to find Kingston. Major

Prince purchased a guide book to make sure that all hamlets in the state should be visited at least once.

The entire St. Stephen's cheering section, including Major Prince, Doctor Cookingham and all of the substitutes followed Simmonds down the sidelines in the capacity of interference when he made his run for touchdown. All bystanders were taken out in great style, the Major and the Doc. each accounting for several fair co-eds.

St. Stephen's College

A Church College of Arts and Letters, for men who are gentlemen, students and sportsmen. The highest scholarship, simplicity and inexpensiveness of living, intimate personal companionship of professors and students, and downright sincerity, characterized this institution.

The fees are: for tuition, \$250 a year; for a room, furnished and heated, \$125 a year; for board in hall, \$225 a year; a total of \$600.

For 1923-24 the number of students is limited to 150.

MEN OF ST. STEPHEN'S

Can you do better with your life and your education than to give them to God, His Church and your fellow men in the Sacred Ministry?

Nashotah House

A THEOLOGICAL SEMINARY

Founded 1842

A three year course for college graduates, covering all the subjects required by the Canons.

Elective courses give the candidate an opportunity to specialize.

Some scholarships are available.

Nashotah offers unique opportunities to men who value the Catholic faith and practice.

Write for a catalogue.

THE VERY REV. BENJ. F. P. IVINS, D. D., Dean

Nashotah, Wisconsin.
